## MOTIF

## CHARMINAR

The Charminar, built in 1591, is a monument and mosque located in Hyderabad, India. It has become a global icon of Hyderabad, listed among the most recognized structures of India. Charminar is situated on the East bank of Musi river. To the Northeast lies the Laad Bazaar and in the West end lies the granite-made and richly ornamented Mecca Masjid. The English name is a translation and combination of the Urdu words *Chār* and *Minar*, translating to "Four Towers"; the eponymous towers are ornate minarets attached and supported by four grand arches.

The Archaeological Survey of India (ASI) is the current caretaker of the structure. Charminar was built at the centre of the city, to commemorate the eradication of "plague", as Muhammad Quli Qutb Shah, the then ruler had prayed for the end of a plague that was ravaging his city and vowed to build a Mosque at the very place where he prayed.

Appendix to Town Directory - Towns showing their Outgrowth with population	218

## **FOREWORD**

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non-Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village and Town and ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1<sup>st</sup>.phase of the Census i.e. House Listing and Housing Census. The non-Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15<sup>th</sup>. July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and `most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner

with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i)-Status and Growth History of Towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Smt Y.V Anuradha, IAS., Director of Census Operation, Andhra Pradesh. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

## Preface

The District Census Handbooks (DCHBs) are brought out in each decennial census since 1951 containing Village and Town Directory, Village and Town wise Primary Census Abstract (PCA) and data on “amenities” for each village and town in the district. The objective of publishing the DCHB is to place the data collected at census along with the data on amenities at Village and Town level, collected from Tahsildars/Municipal Commissioners. The amenities data is validated by comparing with official data obtained from Heads of the Departments. For example, information on schools was compared with data available with the Commissioner, School Education and information on post offices was compared with data obtained from the Chief Post Master General and so on. Validation of data in the above manner was by no means an easy exercise. Scores of officials had put in grueling efforts for months together.

Generally, the District Census Hand Book contains two parts i.e., Part A and Part B. Part A contains Village and Town Directory and Part-B contains data on Village and Town Primary Census Abstract along with Housing amenities. This time Part-A and Part-B are published separately for each district

The present volume deals with the Part-A of the DCHB and comprises broadly: History and Scope of the DCHB, Brief History of the district, District Highlights, Important Statistics of the District, Administrative Setup, Physical Features with District related decadal tables, Census, Non-Census Concepts, Analytical Note on Census findings, Brief Analysis of PCA, Village and Town Directory data. Apart from these, Village wise/ Town wise details on Education, Medical, Water and Sanitation, Communication, Transport, Banking, Power supply, Land Utilization Particulars, Important Commodities manufactured and slum details in Urban areas were also shown.

I am grateful to the Chief Secretary, Principal Secretaries, Secretaries, District Collectors, Municipal Commissioners, Tahsildars, Other officers and officials of the Government of Andhra Pradesh for their co-operation and assistance throughout the Census Operations and in the process of collection of the Secondary data.

I express my heartfelt gratitude to Dr. C. Chandramouli, IAS, Registrar General & Census Commissioner, India, for the inspiring guidance all along. I sincerely express my profound thanks to Dr. R.C. Sethi, ISS, Additional Registrar General, India, Dr. Deepak Rastogi, Deputy Director General, Shri. A.K. Singh, Deputy Registrar General (Census) for help, guidance and constant support accorded in all matters. Thanks are also due to Dr. A.P. Singh, Deputy Registrar General (Map) for his support and guidance in generating digital maps. I also acknowledge the continuous support of Dr. Prathibha Kumari, Assistant Registrar General (S.S) and other Officers of the Office of the Registrar General, India, New Delhi.

I sincerely express my gratitude to Shri M.S.Thapa, Additional Director (EDP), Shri.A.K.Arora, Joint Director (EDP), Shri.Anurag Gupta, Data Processing Assistant (EDP) and his team for their technical guidance in generating various tables in this volume.

Most of the work relating to DCHB has been carried out under the able guidance and direction of Smt Y.V.Anuradha, I.A.S., Director of Census Operations, Andhra Pradesh, Hyderabad. I take this opportunity to acknowledge her valuable contribution made for this publication.

The credit for preparation of District Census Handbooks goes to a team of devoted officers and staff of this Directorate who have involved in this project. The names of Individuals associated with this project are shown in “Acknowledgements”. I am grateful to all of them.

I hope that the data users will find this publication very useful.

## **HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK**

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i)-Status and Growth History of towns,(ii)- Physical Aspects and Location of Towns, (iii)-

Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

## BRIEF HISTORY OF THE DISTRICT

The history of Hyderabad district was inextricably bound up with the rise and fall of various kingdoms, which flourished in the Deccan during the medieval and modern times. The Kakatiyas of Warangal were the first important rulers of this part of the country between 1150 and 1323 A.D. Muhammed-bin-Tughlak, who broke the Kakatiya power in 1323, held sway for some time after which the royal court of the Bahamani Sultan held the Deccan for about two centuries. On their decline, the Barid Shahi kingdom rose to power, which, for unknown reasons, dwindled by about 1609. Then came the famous Qutub Shahis of Golkonda (1512-1687) whose rule opened a glorious chapter in the annals of Hyderabad. It was in the reign of the fifth descendent of this dynasty, Muhammed Quli, that the nucleus of Hyderabad city, renowned for its magnificent mansions, had been laid in 1591 A.D. However, towards the close of the 17th century the fortress of Golkonda fell to the sword of Aurangazeb (1687) who made it a part and parcel of the Mughal Empire and nominated Chin Kalich Khan (Asaf Jhah) as Subedar of the Deccan, who in turn, made himself the master of the Deccan after inflicting a signal defeat on Mubariz Khan (who was secretly instructed by the Mughal Emperor) in the famous battle of Shakarkheda fought on the 11th Oct., 1724. This battle which was renamed Fathkhera by the Nizam-ul-Mulk marks the establishment of the Asif Jahi Dynasty and with it the establishment of an autonomous Deccan. It also marks the end of the medieval period in the history of the Deccan and the commencement of the modern period, which was identical with the end of the Mughal hegemony and the definite establishment of the Asif Jahi rule. The state and the dynasty so founded by Asaf Jhah-I had witnessed many eventful things in the evolution of the Hyderabad state. He also instituted the title of the Nizam which had become since then the hereditary and dynastic title of the successive rulers of this state and thus, he became the founder of the house of the Nizams (1724). Thereafter, the district remained a part of the Nizam's dominion until it became a part of the Indian Union in 1948. It was finally merged in the enlarged state of Andhra Pradesh on 1st November, 1956 when the sovereign Independent republic of India implemented the States' Reorganization Act with a view of redrawing the political map of India, delimiting and alienating the boundaries of the states so as to weld together the people speaking the same language.

**Early Hindu Period:** In pre-historic times the great Dravidian race occupied Southern India including a major portion of the Deccan Plateau. It is uncertain when the Aryans invaded the Deccan. The Empire of Ashoka (273-231 B.C.), however, seems to have had control over the whole of Berar and a considerable portion of the Deccan Plateau. The Andhras were the next kings who ruled the Deccan. They were mentioned in the Asokan inscriptions but their rise to power dates from about 220 B.C. gradually extending their sway from Krishna Delta, they soon possessed an empire reaching to Nasik. This dynasty seems to have come to an end in

the third century A.D., but the reasons for the collapse are little known. The Pallavas who ruled south of Krishna might have extended their power to this region. The next dynasty of importance is that of the Chalukyas who rose to power in Bijapur district by about 550 A.D. and founded an empire spreading east and west across the Peninsula with their capital at Kalyani. Pulakeshi-II (608-642 A.D) ruled practically the whole of India south of Narmada River and even came into contact with Harshavardhana of Kanuj. Throughout their period of supremacy, the Chalukyas were at war with the Pallavas. In the middle of eighth century, the Chalukyas were displaced by the Rashtrakutas of Malkhed in Gulbarga district. About 973 A.D., the Chalukyan Dynasty was restored and for nearly 200 years maintained its position, in spite of fierce struggles with the Cholas and Hoyasalas of Dorasamudra. The Chalukya power fell about 1189 A.D., to the Hoyasalas and Yadavas, the latter of whom established themselves at Deogiri. The Yadavas were the last great Hindu rulers of the Deccan, for Vijayanagar Kingdom, which was founded half a century later after the advent of the Mohammedans never acquired much sway in the Deccan proper.

**Muhammadan Period:** Alla-ud-din Khilji led the first Mohammedan expedition into the Deccan in 1294 against the Yadava ruler of Deogiri and forced him to submission. In 1296, he assassinated his own uncle and seized the throne, and sent an expedition to Deogiri. His first expedition was dispatched in 1303 against the Kakatiya kings of Warangal, who had established themselves there since the middle of the 12th Century. This, having failed, he sent a second expedition under Malik Kafur in 1309, which resulted in the submission of the Raja who agreed to pay tribute. In 1310, Malik Kafur was sent against the Hoyasala Raja of Dorasamudra (Halebid in Mysore). In 1318, when Harpal, the Deogiri ruler rebelled, he was defeated and put to death and with him the Yadava dynasty ended. Muhammad-bin-Tughlak conducted a later campaign against Warangal and finally broke the Kakatiya power in 1323. When Muhammad-bin-Tughlak ascended the throne in 1325 at Delhi, the Mohammedans were masters of the Deccan from North to South. The chief Rajas of Telangana acknowledged their sway and paid tribute. He changed the name of Deogiri to Daulatabad and made it his capital. A few years later, the imperial governors of the Deccan revolted resulting in the establishment of the Bahamani Dynasty. Zafar Khan, who styled himself as Alla-ud-din Hasan Shah Gangu founded this line and having taken possession of the Deccan provinces including Bidar and Gulbarga, he made the latter place his capital and commenced to rule from 1347 A.D. The Bahamani Kingdom extended from Berar in the North to the left bank of the Tungabhadra in the South and from Dabal on the West Coast to Telangana tracks in the east. After the fall of this dynasty the Barid Shahi dynasty came into power. Amir Barid who assumed sole charge of the affairs of the Bahamani Kingdom after the downfall of the Bahamani Dynasty had many vicissitudes and constant wars with the rulers of Bijapur and Berar and he died in Daulatabad in 1538. He was succeeded by his son Ali Barid who was the first to assume the title of Shah. In 1565 he marched along with the other Deccan kings against the Rajas of Vijayanagar, in the memorable battle of Tallikota the Vijayanagar ruler was defeated, and his fate sealed. Ali Barid died in 1582 and he was succeeded by three other kings. The Qutub Shahi dynasty next came into prominence. Qutub-ul-Mulk Sultan Kuli, a Turk of noble family, who was governor of the Golkonda province under the Bahamanis took advantage of the distracted state of the kingdom under Muhammad Shah of the Barid Shahi

dynasty and declared his independence establishing the Qutub Shahi Dynasty, which reigned from 1512 to 1687 A.D.

When the Mughals invaded the Deccan, the local rulers formed an alliance against him, but after defeating the invaders, they fell out among themselves, enabling the Mughal troops to subdue the country. Shah Jahan after rebelling against his father fled from Burhanpur and was welcomed at Golconda by Abdullah Qutub Shah. In 1655 A.D. Shah Jahan who had then become the emperor, sent a farman to Golconda which was well received. Mir Jumla, the king's minister, appealed to Aurangazeb for help against his master in 1655 A.D., and this afforded a pretext for Aurangazeb to invade the territory. Hyderabad was plundered, but Abdullah sued for peace and paid arrears for tribute. He died in 1674 A.D., and was succeeded by his nephew Abdul Hasan, also called Tana Shah. After the fall of Bijapur in 1686 A.D. Aurangazeb turned his attention to Golconda which was taken in the following year. Tana Shah was made a prisoner and died in 1704 A.D., and with him the Qutub Shahi line ended. This dynasty was followed by Asif Jahi's Dynasty to which the present Nizams belong. The Asif Jahi's dynasty was founded by Asif Jahi, a distinguished General of Aurangazeb, a Turksman by decent. After a long service under the Delhi emperor, he was appointed as Subedar or Viceroy of the Deccan in 1713 A.D. with the title of Nizam-ul-mulk, which has since become the hereditary title of the family. The Mughal Empire at this period was on the verge of decline owing to internal dissensions and attacks from within. Amidst the general confusion Asif Jahi had little difficulty in asserting his independence against the degenerate and weak occupants of the throne of Delhi, but he had to repel the inroads of Marathas who were harassing the west of his newly acquired territory. His independence was the cause of much jealousy at Delhi and the court party secretly instructed Mubariz Khan, Governor of Khandesh to oppose him by force of arms. A battle was fought at Shakharkheda in the Buldana district of Berar in 1724 A.D. when Mubariz Khan was totally defeated and lost his life. This battle established the independence of Asif Jahi who annexed Berar, fixed his residence at Hyderabad, and established his dominions. The present Hyderabad district along with the rest of the Telangana came under the control of the Asif Jahi's dynasty.

After the death of Asif Jahi, Nazir Jung, his second son, and Muzaffar Jung, his grandson by one of his daughters, strove for the succession. At this time, the English and the French were contending supremacy in the East and each of the claimants secured the support of one of these powers. Nazir Jung's cause was espoused by the English, while Muzaffar Jung was supported by the French. The latter, however, fell a prisoner to his uncle, but on the assassination of Nazir Jung, Muzaffar Jung, was proclaimed the sovereign. Duplex, the French Governor, became the controller of the Nizam's authority. Muzaffar Jung was killed by some Pathan chiefs and the French then selected Salabat Jung a brother of Nazir Jung and son of Asaf Jah as ruler. Ghazi-ud-Din, the eldest son of Asif Jahi, who, it was alleged had relinquished his claim at first now appeared as a claimant, supported by the Marathas, but his sudden death put stop to further struggles. The English and the French were then contesting for power and influence in the Deccan, but the victories of Clive in the Carnatic caused the latter to turn their attention to their own possessions which were threatened and to leave Salabat Jung to shift for himself. Nizam Ali Khan, the fourth son of Asif Jahi at this juncture obtained the support of the English on the promise of dismissing French from his service. Salabat Jung was dethroned in 1761 A.D. and Nizam Ali Khan was proclaimed ruler.

In 1766 A.D., the Northern Circars were ceded to the British on the condition that the Nizam was to be furnished with a subsidiary force in time of war and received 6 lakhs of rupees per annum when no troops were required, the Nizam on his part promising to support the British with his troops. This was followed by the treaty of 1768 A.D. by which the East India Company and the Nawab of Carnatic engaged to assist the Nizam with troops whenever required by him on payment. In 1790 A.D., war broke out between Tipu Sultan and the British and a treaty of alliance was concluded between the Nizam, the Marathas and the British. Tipu, however, concluded peace and had to relinquish half of his dominions, which was divided among the allies. In 1798 A.D., another treaty was concluded between the Nizam and the British. On the fall of Srirangapatnam and the death of Tipu Sultan, the Nizam participated largely under the treaty of Mysore in 1799 in the division of territory and his share was increased because of the withdrawal of the Peshwas from the treaty. In 1800, a fresh treaty was concluded between the Nizam and the British by which Nizam ceded all the territories, which had accrued to him under the treaties of 1792 and 1799, i.e., Cuddapah, Kurnool, Ananthapur and Bellary districts known as the ceded districts of Madras. Nizam Ali Khan died in 1803 and he was succeeded by his son Sikander Jah. On the death of Sikander Jah in 1829, his son Nasir-ud-Doula succeeded. Nasir-ud-Daula died in May 1857 and he was succeeded by his son Afzal-ud-Doula. In 1869, on the death of Afzal-ud-Doula, his son Mir Mahabub Ali Khan Bahadur became the ruler. As he was only three years old then, a regency was constituted for the administration of the country, with Salarjung-I as regent and Nawab Shams-ul-Umara as Co-Regent, the British resident being consulted on all important matters concerning the welfare of the state. On the death of the Co-regent in 1877, his half brother Nawab Vicar-ul-Umara was appointed as Co-administrator but he also died in 1881, Sir Salar Jung remaining sole administrator and regent till his death in 1883. In 1884, Mir Mahboob Ali Khan having attained majority was installed as ruler by Lord Rippon. On the death of Mir Mahaboob Ali Khan, in 1911 Mir Osman Ali Khan ascended the throne. In 1947 when the country attained independence, the princely states were given choice either to remain independent or to join the Indian Union. The Nizam's dominion became part of Indian Union in 1948 as a Part 'B' state. In 1956, during the re-organisation of states, the Hyderabad state was trifurcated and the nine predominantly Telugu speaking districts of Mahabubnagar, Hyderabad, Medak, Nizamabad, Adilabad, Karimnagar, Warangal, Khammam and Nalgonda known as the Telangana region were transferred to Andhra Pradesh. Major portions of the predominantly Kannada speaking districts of Raichur, Gulbarga and Bidar were transferred to Mysore state while the Marathwada comprising the five districts of Aurangabad, Osmanabad, Bhir, Parbhani, Nanded and portion of Bidar which is predominantly Marathi speaking was transferred to Maharashtra state. These changes were effected on the 1st November 1956.

Hyderabad, as the state Headquarters district since the heyday of the Nizam's rule, had occupied a central position both geographically and politically. The district was known for long as the Atraf-i-Balda district meaning "Suburbs of the City". It comprised the Sarf-i-Khas ilaqas that were situated around the city of Hyderabad and formed into a district and was placed under a Talukdar subject to the direct control and supervision of the Surf-i-Khas secretary. This district plus other crown lands spreading all over the dominions constituted the personal property of the Nizam. They came to be regarded as a 'State within a State' and remained territorially unaltered since the turn of the century though numerous changes were

noticed in regard to other districts over decades. It was only in the decade 1941-51 that the district had undergone a radical territorial change when both the Atraf-i- Balda district and the district of Baghat were abolished and the present Hyderabad district was created. Subsequently, the district passed under Central Administration (1948) and ceased to be the ruler's personal property.

### **Historical Background of Hyderabad City:**

Hyderabad, the historic beautiful city is the capital of Andhra Pradesh. Originally, it was founded by Sultan Muhammed Quli Qutub Shah the 5th king of the Qutub Shahi dynasty in 1590 A.D. at Golconda kingdom.

Formerly, Hyderabad was known as Bhagyanagar. This was named in the sweet memory of the Sultan's beloved Bhagamathi. After her death, the name Bhagyanagar had 2 or 3 changes and at last, it was named as Hyderabad Deccan.

#### **Qutub Shahi Kings :**

1	Sulthan Quli Qutub Shah	1512-1543
2	Jamsheed Quli Qutub Shah	1543-1550
3	Ibrahim Quli Qutub Shah	1550-1580
4	Mohammed Quli Qutub Shah	1580-1611
5	Sulthan Mohammed Quli Qutub Shah	1611-1626
6	Sulthan Abdullah Quli Qutub Shah	1626-1674
7	Sulthan Abdul Hasan Tana Shah	1674-1704

#### **The Asif Kings (Nizams) :**

1	Mir Qumaruddin Ali Khan Asif Jah-I	1724-1748
2	Mir Nizam Ali Khan Asif Jah-II	1762-1803
3	Mir Akbar Ali Khan Asif Jah-III	1803-1829
4	Mir Ferkhumda Ali Khan Asif Jah-IV	1829-1857
5	Mir Taniat Ali Khan Asif Jah-V	1857-1869
6	Mir Mohboob Ali Khan Asif Jah-VI	1869-1911
7	Mir Osman Ali Khan Asif Jah-VII	1911-1947 (Golden age of Nizam)

## **ADMINISTRATIVE SET-UP OF HYDERABAD DISTRICT**

#### **Region of the State where the district is located:**

Hyderabad district is the state capital and is completely surrounded by Rangareddy district. The present Hyderabad (Urban) district in its shape came into existence in August 1978 consequent on formation of a new district, Rangareddy from the erstwhile Hyderabad district. All the rural areas of erst, while Hyderabad district have been included in Rangareddy district, while the area of Municipal Corporation of Hyderabad, Secunderabad Cantonment, Lalaguda and Osmania University were included in Hyderabad district. Later on, Lalaguda merged with Hyderabad city. There were 66 villages in the district and grouped into erstwhile four taluks,

viz., Charminar, Golconda, Musheerabad and Secunderabad and all these villages got merged in urban areas of the district.

The state capital being in this district, got highly developed in all aspects. With a view to bring up the Administration to the door steps of the people and to solve their problems, upliftment of the people, the Government as a policy took a decision to restructure the Lower level Administrative set-up in the state.

**a) Number of Revenue Divisions and Mandals:**

The revenue Mandals were set up as per G.O. M.S. No. 107 revenue (Mandal-II), Dept., Government of Andhra Pradesh dated 16.5.1985, Hyderabad district was divided into four revenue Mandals viz., Charminar, Golconda, Musheerabad and Secunderabad with effect from 25-06-1985. In 1999, Hyderabad district was divided into two revenue divisions on 11.3.99 as Hyderabad and Secunderbad.

In exercise of the powers conferred by sub-section (1) of section three of the Andhra Pradesh district (Formation) Act 1974, the Governor of Andhra Pradesh in the interest of the better administration and development of the areas concerned and after having published proposals in that regard as required under sub-section (5) of section three of the said Act and having taken consideration, the objections and suggestions received there on from all persons in the area concerned and likely to be affected there by creation of 16 Mandals from four Mandals viz. Secunderabad, Musheerabad, Golconda & Charminar [with effect from 27.12.1996]. The 16 Mandals are spread in two revenue divisions are as follows:

- 1) Hyderabad Division:** (9 Mandals) Amberpet, Himayath nagar, Nampally, Asif Nagar, Golconda, Bahadurpura, Bandlaguda, Charminar and Saidabad.
- 2) Secunderabad Division:** (7 Mandals) Shaikpet, Ameerpet, Secunderabad, Tirumalgiri, Maredpally, Musheerabad and Khairatabad.

**b) Total number of Towns and Villages:**

As Hyderabad is totally an urban district there are no villages but the district has one Census town (Osmania University), one Cantonment Board (Secunderabad) and One GHMC (Greater Hyderabad Municipal Corporation).

**c) Changes in Administrative Units during 2011 Census:**

However in 2011 Census the district has no changes and retained the same position as in 2001 Census with two revenue divisions and 16 urban Mandals of which Hyderabad revenue division has nine Mandals and Secunderabad revenue division has seven Mandals. In addition it is to mention that the district has three towns (2 statutory towns viz; GHMC, Secunderabad cantonment Board and one Census town Osmania University).

\*In 1961 Census, Municipalities were divided into C.M (City Municipalities) and T.M (Town Municipalities).

\*\* Secunderabad Cantonment Board

## **DISTRICT HIGHLIGHTS**

- Hyderabad district stands 23<sup>rd</sup> position in terms of area with 217.00 Sq. Kms and ranks 10<sup>th</sup> in terms of population with 39,43,323 persons in the state.
- Hyderabad district stands 18<sup>th</sup> in terms of urban area with 217.00 Sq. Kms and ranks 1<sup>st</sup> in terms of urban population with 39,43,323 persons in the state and as it has no rural position it stands least position for area and population.
- The district ranks 15<sup>th</sup> in terms of households with 8,49,051 as against 6,95,906 households in 2001.
- The district ranks 23<sup>rd</sup> in terms of total number of villages with no villages as this district is entirely urban and the same prevailed in 2001 Census.
- The district ranks 23<sup>rd</sup> position in the state in terms of Sex-ratio with 954 as against 933 in 2001.
- The district ranks 1<sup>st</sup> in terms of Density with 18,172 persons per Sq. Kms as against 17,649 in 2001.
- The district ranks 5<sup>th</sup> in terms of literacy with 28,92,155 literates as against 26,34,349 in 2001.

- The district is with 14,13,297 workers and 25,30,026 non-workers as against 1,19,842 workers and 27,09,911 non-workers in 2001 respectively.

**Mandal [Sub-District]:**

- Bandlaguda Mandal is having the largest Urban area of 29.93 Sq. Kms while Ameerpet Mandal is having the least Urban area of 3.72 Sq. Kms .
- Bahadurpura Mandal is having the highest Urban population of 4,68,158 persons, while the least Urban Population of 59,070 persons is found in Ameerpet Mandal.
- Highest Sex-ratio of 1,003 is found in Maredpalle Mandal and the least Sex-ratio of 919 is found in Tirumalgiri Mandal.
- Bahadurpura Mandal is having highest Density of 56,609, while Shaikpet Mandal is having the least Density of 8,722 persons per Sq. Km.
- Highest No. of 3,22,524 literates are in Bahadurpura Mandal and least No. of 46,669 literates are found in Ameerpet Mandal.
- Asifnagar Mandal is having highest No. of workers 1,49,193 and non-workers 3,23,367 in Bahadurpura Mandal, while Ameerpet Mandal is having the least No. of workers 24,843 and non-workers 34,227 respectively.

## **ANALYTICAL NOTE**

## PHYSICAL FEATURES

**Location and Size:** Hyderabad district which is also the State capital of Andhra Pradesh is exclusively surrounded by Rangareddy district on all sides and lies approximately between 17°20' to 17° 60' North latitudes and 78°23' to 78°68' East longitudes. The total area of the district is 217 Sq. Km and ranks 23<sup>rd</sup> position contributing about 0.08 % area of the State. The shape of the district is almost an irregular square.

**Physiography:** The district as a whole is an Urban sprawl and is a cosmopolitan city. The Urban agglomeration of the district extends to Rangareddy and Medak districts. Physiographically, the district is characterised by an average elevation between 500–600 meters from the Mean Sea Level (MSL) and the general slope is towards East. The topography is rugged particularly in the Eastern part. Quite contrary the major part of the district in the East is obviously noticed to have congested settlements under urban system of Hyderabad. Geologically, the district shows Archaean rocks specified as cordierites gneiss, hornblende-biotitic and unclassified crystalline. Soils of the district relate to Ustalfs-Tropepts sub-order association of the soil classification. Thus in view of its physiographic personality as well as existing land-use pattern, the district has been divided into two regions as follows:

**West-South Hyderabad Urban Area:** Lying along the Western and Southern margins of the district as a crescent, the region covers the Golkonda and Charminar areas. It is characterised by the rugged surface composed of hillocks, rocky knobs, stony waste; ponds/tanks although built-up structures are visible extensively. The region is developed on the Archaean rocks with Ustalfs-Tropepts soil sub-order association.

**Core Hyderabad Urban Area:** The region holds the major coverage extending over the extensive areas of Golkonda, Secunderabad, Mushirabad and Charminar. The river Musi runs through the Southern part and Hussain Sagar is the most significant water body in the centre of the region. A few smaller tanks/ponds can also be spotted in the region. The district's geology is Archaean and soil is Ustalfs-Tropepts. This region is distinguishable from its counterpart as it has a considerable coverage under compact built-up area and the congestion of the built-up area is higher, particularly between the twin cities of Hyderabad and Secunderabad.

**Flora:** There is no forest area in Hyderabad district. However, some scrub jungles and greenery was the home of vasugated flora. Consequent to the general hot and dry climate the flora of the district exhibits xerophytic adaptations. Since the district is rapidly urbanized, there is no scope for developing forests.

**Fauna:** It was recorded that during the beginning of 19<sup>th</sup> century, the district with its low scrubby jungles was home of leopards, bears, hyenas and occasionally tigers while in the more open plains the antelope was found in plenty. Due to rapid urbanization, the forests have disappeared in the district. However, there is a famous Nehru Zoological Park spread over 380 acres (150 ha) and is adjacent to the 600-acre (240 ha) Mir-A-lam Tank. It was established in vide G.O.Ms. No.247, dated 26 October 1959 and was opened to the public on 6 October 1963. The Nehru Zoological Park is run by forest department, named after the first prime minister of the country, Jawaharlal Nehru. This is one of the biggest zoological gardens

in the country. The main object of the park was to provide natural habitation to the various 100 species of birds, animals and reptiles of wild and mild types, secured and reared by the zoo authorities. There are nearly 1,100 animals, carnivorous as well as herbivorous, and birds in large mooted enclosures.

The indigenous animals like the Indian rhino, Asiatic lion, Bengal tiger, panther, Indian elephant, slender Loris, python, as well as deer, antelopes and birds are housed at Zoo. The 600-acre (240 ha) Mir-A-lam Tank with its unique multiple arched bund (embankment), attracts hundreds of migratory birds, providing yet another attraction for the zoo. The tank was converted into a charming drive lake for the visitors too. The nocturnal house at the zoo artificially reverses night and day for the animals so that nocturnal animals are active, while visitors are at the zoo. This exhibit includes fruit bats, slender Loris, slow Loris, civets, leopard cats, hedgehogs, barn owls, mottled wood owls, fishing owls, and great horned owls. There is also an aquarium, Dino park, butterfly park and tortoise house.

**Drainage:** The chief river of the district is the Musi. The river originates in Anantagiri Hills near Vikarabad, Ranga Reddy district, 90 km. to the West of Hyderabad and flows due East for almost its entire course. It joins the Krishna River at Vadapally in Nalgonda district after covering a distance of about 240 km. There are many bridges across the river in Hyderabad. The oldest bridge, Purana pul (meaning old bridge) was built during the reign of Ibrahim Qutub Shah in 1579 A.D. Nayapul (meaning new bridge), near High Court was added later. There are other bridges in Dabirpura, Chaderghat, Amberpet, Uppal Kalan etc. The river has a rocky and very steep fall. It brings very heavy and sudden floods during the monsoon. During the year 1908, Musi swelled up in high floods and submerged a major portion of Hyderabad city and many villages on its banks, and caused severe damages to the life and property. Immediately after this disaster, the problem of controlling flood received the attention of the then Government of Hyderabad. Consequently, two major reservoirs Himayatsagar and Osmansagar (Gandipet) were constructed on the two branches of river Musi called Easa (Eas-Alo-Salaam or Jesus) and Musa (Moos-Alo-Salaam or Moses). The storages of these two reservoirs are exclusively being utilized for drinking water supply to the twin cities of Hyderabad and Secunderabad.

**Mir-A-lam Tank**, a reservoir located to the South of Musi River was the primary source of drinking water to Hyderabad before Osman Sagar (Gandipet) and Himayat Sagar was built. It is connected to National Highway NH-44 near Palm Valley. The tank was named after Mir Alam Bahadur, then Prime Minister (1804-1808) of Hyderabad State during the reign of Asaf JahI-III, the third Nizam of Hyderabad State. Mir Alam laid the foundation for the tank on July 20, 1804 and it was completed in about two years on June 8, 1806.

**Hussain Sagar (Tank Bund):** is a lake in Hyderabad, built by Hazrat Hussain Shah Wali in 1562, during the rule of Ibrahim Quli Qutub Shah. It is spread across an area of 5.7 square kilometer and is fed by River Musi. Maximum depth of the lake is 32 feet. Hussain Sagar was built across a tributary of the Musi. The lake was named after Hussain Shah Wali, who helped design it. It is an artificial lake that holds water perennially fed by canals from Musi River. Hussain Sagar was the main source of drinking water supply to Hyderabad before Himayat Sagar and Osman Sagar were built on river Musi. The road on the Tank Bund was widened in

1946 when Sir Mirza Ismail was the prime minister of Hyderabad Deccan. Further widening and beautification of the Tank bund took place during 1987-88 by the then Chief Minister of Andhra Pradesh Dr. Nandamuri Taraka Rama Rao (Dr. N.T.R) with the addition of fountains with dancing waters, tantalizing coloured lights at night and bronze statues of prominent personalities. A large monolithic statue of the Gautama Buddha, erected in 1992 stands in an island in the middle of the lake.

**Climate:** Hyderabad district is situated at a considerable distance from the sea-coast, the climate is tropical and is characterised by hot summer and dry except during the South-west monsoon season. As per climate conditions of the district, the year may be divided into four seasons. The hot (summer) season is from March to May. From March onwards the temperature continues to rise and May is generally the hottest month in the year. The period from June to September constitute the South-west monsoon (SW rainy) season, while October and November form the post monsoon (NE rainy) season. The cold (winter) season is from December to February. The emerging of constructions, the rapid Industrialization, different pollution and the ruthless destruction of trees under the scheme of road widening the city is becoming hotter and the climate erratic.

**Winds:** Winds are generally light to moderate with some increase in force during May and South-west monsoon season. During the post-monsoon season winds are very light and variable in direction in the mornings and mostly North-eastern in the afternoons. During the latter half of the cold season and in March and April morning, wind continues to be light and variable in direction, while the afternoon winds are being mostly Eastern to South-western. Winds from Western direction begin to blow from May and in the South-west monsoon season; winds are mainly from Western to North-western direction.

**Temperature:** The days are intensively very hot and on individual days the temperature may go up to about 43°C. The maximum temperature of 41.2°C during the decade is recorded during the year 2003 in the hottest month of May. With advance of South-west monsoon by about middle of June there is an appreciable drop in temperature. By October, the day temperature begins to increase slightly, but the night temperature steadily decreases. After November both day and night temperature decreases rapidly. The minimum temperature of 13.3°C is recorded in the early decade i.e., during the year 2000 and in the month of December. The following table indicates the maximum and minimum temperatures month-wise during the decade from 2000 – 2009:

Table – 1: Month-wise Maximum and Minimum temperature during the decade (2000-10)

**Rainfall:** Most of the rainfall is from the South-west monsoon with a normal rainfall of 562 mm; followed by North-east monsoon with a rainfall variation of 152 mm. The least normal rainfall of 8 mm is found during winter season; followed by 57 mm of normal rainfall during hot-weather period. The highest amount of 1170 mm actual rainfall is recorded during 2005-2006 as against the normal rainfall of 779 mm annually with a rainfall variation of 50.19 % on the positive side (an addition of 392 mm of rainfall). The least amount of 614 mm actual rainfall is recorded during 2003-2004 as against the normal rainfall of 779 mm annually with a rainfall variation of -21.18 % on the negative side (a reduction of 164mm of rainfall). However, the rainfall recorded during the decade is 8,422.7 mm as against the normal rainfall of 7,790 mm with a rainfall variation of 8.12 % on the positive side.

The livestock plays a multi-faceted role in providing drought power for the farm, manure for crops and energy for cooking, food, milk and meat for household consumption as well as for the market. Livestock also provides raw material such as hides and skins, blood, bone, fat etc required for industrial use. Livestock development service at the close of each financial year is shown below:

The livestock population is conducted by the Department of Animal Husbandry, Dairying and Fisheries, Ministry of Agriculture, Government of India. Livestock Census is a complete count of the livestock and poultry at a pre-defined reference point of time. As in population Census, primary workers were engaged to undertake house to house enumeration and ascertain the number, age, sex, etc., of livestock/poultry possessed by every household/household enterprises/ non-household/ non -household enterprises and institutions in rural and urban areas. The following table gives the details of the Livestock census conducted in 2003 & 2007.

## CENSUS CONCEPTS

**Building:** A 'Building' is generally a single structure on the ground. Usually a structure will have four walls and a roof. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, work sheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum- residence, workshop – cum - residence, office-cum-residence etc. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

**Pucca houses:** Houses, the walls and roof of which are made of permanent materials. The material of walls can be anyone from the following, namely, Stones (duly packed with lime or cement mortar), G.I/metal / asbestos sheets, Burnt bricks, Cement bricks, Concrete. Roof may be made 'of from anyone of the following materials, namely, Machine-made tiles, Cement tiles, Burnt bricks, Cement bricks, Stone, Slate, G.I/Metal/Asbestos sheets, Concrete. Such houses are treated as Pucca house.

**Kutcha houses:** Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from anyone of the following temporary materials, namely, grass, Un burnt

bricks, bamboos, mud, grass, reeds, thatch, plastic /polythene, loosed packed stone, etc. Such houses are treated as Kutcha house.

**Dwelling Room:** A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census house is used as a shop or office. etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

**Census House:** A 'census house' is a building or part of a building used or recognized as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non-residential purpose or both. If a building has a number of Flats or Blocks/Wings, which are independent of one another having separate entrances of their own from the road or a common

staircase or a common courtyard leading to a main gate, these are considered as a separate Census house.

**Village:** The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In un surveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

**Rural-Urban area:** The data in the census are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. The urban area comprises two types of towns viz. Statutory towns and Census towns. In the Census of India 2011, the definition of urban area adopted is as follows:

**(a) Statutory Towns:** All places with a municipality, corporation, cantonment board or notified town area committee, etc are known as statutory towns.

**(b) Census Towns:** All other places satisfying the following three criteria simultaneously are treated as Census Towns.

- i) A minimum population of 5,000;
- ii) At least 75 per cent of male working population engaged in non-agricultural pursuits; and
- iii) A density of population of at least 400 per sq. km. (1,000 per sq. mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 2001 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account. In addition the above stated towns, urban areas also constitutes of OGs which are the parts of UAs.

**Urban Agglomeration:** An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together with or without urban outgrowths of such towns. In some cases, railway colonies, university campuses, port areas, military camps etc. may come up near a statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may qualify to be clubbed with the existing town as their continuous urban spread (i.e., an Out Growth). Each such town together with its outgrowth(s) is treated as an integrated urban area and is designated as an 'urban agglomeration'. For the purpose of delineation of Urban Agglomerations during Census of India 2011, following criteria has been adopted:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of an Urban Agglomeration (i.e. all the constituents put together) should not be less than 20,000 as per the 2001 Census. In varying local conditions, there were similar other combinations which have been treated as urban agglomerations satisfying the basic condition of contiguity.

**Out Growth (OG):** The outgrowth is a viable unit such as a village or a hamlet or an enumeration block and clearly identifiable in terms of its boundaries and location. While determining the outgrowth of a town, it has been ensured that it possesses the urban features in terms of infrastructure and amenities such as pucca roads, electricity, taps, drainage system for disposal of waste water etc., educational institutions, post offices, medical facilities, banks etc and physically contiguous with the core town of the UA.

**City:** Towns with population of 100,000 and above are called cities.

**Household:** A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen/common cooking. There may be one member households, two member households or multi-member households.

**Institutional Household:** A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, observation homes, beggars homes, jails, ashrams, old age homes, children homes, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2011, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

**Houseless household:** Households who do not live in buildings or census houses but live in the open or roadside, pavements, in hume pipes, under flyovers and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

#### **Scheduled Caste and Scheduled Tribes:**

The list of SCs and STs applicable in the State/UT is given hereunder:-

#### **List of Scheduled Castes In Andhra Pradesh**

1. Adi Andhra
2. Adi Dravida
3. Anamuk
4. Aray Mala
5. Arundhatiya
6. Arwa Mala
7. Bariki
8. Bavuri

9. Beda, (Budga) Jangam (in the districts of Hyderabad, Rangareddy, Mahbubnagar, Adilabad, Nizamabad, Medak, Karimnagar, Warangal, Khammam and Nalgonda).
10. Bindla
11. Byagara, Byagari
12. Chachati
13. Chalavadi
14. Chamar, Mochi, Muchi, Chamar-Ravidas, Chamar-Rohidas
15. Chambhar
16. Chandala
17. Dakkal, Dokkalwar
18. Dandasi
19. Dhor
20. Dom, Dombara, Paidi, Pano
21. Ellamalawar, Yellammalawandlu
22. Ghasi, Haddi, Relli, Chachandi
23. Godagali, Godagula (in the districts of Srikakulam, Vizianagaram and Visakhapatnam)
24. Godari
25. Gosangi
26. Holeya
27. Holeya Dasari
28. Jaggali
29. Jambuvulu
30. Kolupula Vandlu, Pambada, Pambanda, Pambala
31. Madasi Kuruva, Madari Kuruva
32. Madiga
33. Madiga Dasu, Mashteen
34. Mahar
35. Mala, Mala Ayawaru

36. Mala Dasari
37. Mala Dasu
38. Mala Hannai
39. Malajangam
40. Mala Masti
41. Mala Sale, Netkani
42. Mala Sanyasi
43. Mang
44. Mang Garodi
45. Manne
46. Mashti
47. Matangi
48. Mehtar
49. Mitha Ayyalvar
50. Mundala
51. Paky, Moti, Thoti
52. Pamidi
53. Panchama, Pariah
54. Relli
55. Samagara
56. Samban
57. Sapru
58. Sindhollu, Chindollu
59. Yatala
60. Valluvan

**List of Scheduled Tribes in Andhra Pradesh:**

1. Andh, Sadhu Andh
2. Bagata

3. Bhil
4. Chenchu
5. Gadabas, Bodo Gadaba, Gutob Gadaba, Kallayi Gadaba, Parangi Gadaba, Kathera Gadaba, Kapu Gadaba
6. Gond, Naikpod, Rajgond, Koitur
7. Goudu(in the Agency tracts)\*
8. Hill Reddis
9. Jatapus
10. Kammara
11. Kattunayakan
12. Kolam, Kolawar
13. Konda Dhoras, Kubi
14. Konda Kapus
15. Kondareddis
16. Kondhs, Kodi, Kodhu, Desaya Kondhs, Dongria Kondhs, Kuttiya Kondhs, Tikiria Kondhs, Yenity Kondhs, Kuvinga
17. Kotia, Benthoo Oriya, Bartika, Dulia, Holva, Sanrona, Sidhopaiko
18. Koya, Doli Koya, Gutta Koya, Kammara Koya, Musara Koya, Oddi Koya, Pattidi Koya, Rajah,Rasha Koya,Lingadhari Koya(ordinary), Kottu Koya, Bhine Koya, Rajkoya
19. Kulia
20. Malis (excluding Adilabad, Hyderabad, Karimnagar, Khammam, Mahbubnagar, Medak, Nalgonda, Nizamabad and Warangal districts)
21. Manna Dhora
22. Mukha Dhora, Nooka Dhora
23. Nayaks(in the Agency tracts)\*
24. Pardhan
25. Porja, Parangiperja
26. Reddi Dhoras
27. Rona, Rena
28. Savaras, Kapu Savaras, Maliya Savaras, Khutto Savaras

29. Sugalis, Lambadis, Banjara
  30. Thoti (In Adilabad, Hyderabad, Karimnagar, Khammam, Mahbubnagar, Medak, Nalgonda, Nizamabad and Warangal Districts)
  31. Valmiki (in the Schedule areas of Visakhapatnam, Srikakulam, Vizianagaram, East Godavari and West Godavari districts)\*
  32. Yenadis, Chella Yenadi, Kappala Yenadi, Manchi Yenadi, Reddy Yenadi
  33. Yerukulas, Koracha, Dabba Yerukula, Kunchapuri Yerukula, Uppu Yerukula
  34. Nakkala, Kurvikaran
  35. Dhulia, Paiko, Putiya (in the districts of Visakhapatnam and Vizianagaram)
- 

\* The agency tracts is comprised of Srikakulam, Vizianagaram, Visakhapatnam, East Godavari, West Godavari and Khammam districts.

**Language and Mother tongue:** As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person. Mother tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

**Literate:** A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

**Literacy rate:** Literacy rate of the population is defined as the percentage of literates in the age-group seven years and above. For different age-groups the percentage of literates in that age-group gives the literacy rate.

Educational level: The highest level of education a person has completed.

**Work:** Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. The main point to note is that the activity should be economically productive. Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

**Main worker:** A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

**Marginal worker:** A person who worked for 3 months or less but less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

**Non-worker:** A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

**Cultivator:** For purposes of the Census, a person is classified as cultivator if he or she is engaged in cultivation of land owned or from government or from private persons or institutions for payment in money, kind or share. Cultivation also includes effective supervision or direction in cultivation. Cultivator involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the plantation crops like- tea, coffee, rubber, coconut and betel nuts (areca). The workers engaged in Plantation crops are recorded under "other workers".

**Agricultural labourer:** A person who works on another person's land for wages in cash or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

**Household industry worker:** Household industry is defined as an industry conducted by one or more members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods. The activity relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as a Pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions; trade or services are- run at home by members of-the-household.

**Other worker:** A person, who has been engaged in some economic activity during the last year of reference period but not as a cultivator or agricultural labourer or worker in Household Industry. The type of workers that come under this category include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In fact, all those workers other than cultivators or agricultural labourers or household industry workers are 'Other Workers'.

**Work participation rate:** Percentage of Workers (Main + Marginal) to total population.

**Population density:** Population density is the number of persons inhabited per square kilometer of the area.

**Age:** Age is measured in terms of the completed number of years.

**Sex Ratio:** Number of females per 1,000 males in a population.

## NON-CENSUS CONCEPTS

**Civic status of urban units:** Civic Status of a town/city is determined on the basis of Civic Administrative Authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee / Municipal council, Municipality etc.

**Size class of U.A./town:** Size-class of U.A./Town is based on the population size of the U.A./City/Town.

U .A.s/Towns with 100,000 and above population are classified as Class I U.A.s/Towns. Towns with 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000- 19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

**Slum area:** The Slum Areas (Improvement and Clearance) Act, 1956, which was enacted by the Central Government defined slums as (a) Areas where buildings are in any respect unfit for human habitation; or (b) are by reasons of dilapidation, overcrowding, faulty arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

**Mega city:** The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities and the same criteria of population has been adopted in 2011 census.

**CONCEPTS AND DEFINITIONS USED IN VILLAGE DIRECTORY (VD)  
AND TOWN DIRECTORY (TD) OF DISTRICT CENSUS HANDBOOK (DCHB)**

**1. Educational Amenities:** The type of different educational facilities available in the village is given in numbers. Both Government and private educational facilities / institutions are considered for this-purpose. If there are composite schools like Middle schools with Primary classes, or Secondary schools with middle classes, these are included in the number of Primary and Middle schools respectively. For example, if in a village there are two Primary schools and one Middle school with primary classes, the number of Primary schools in the village are given as three and that of Middle school as one even though there may be only three educational institutions. So also in case of Secondary schools. For better understanding, the distinctiveness of different types of schools is depicted hereunder:

**1.1 Pre-primary (PP):** Now-a-days, the children are sent to schools at a very early stage. Lot of pre-primary schools, private schools in particular, have come up in villages and towns. These may or may not be recognized by the competent authorities. Even many Secondary schools have classes starting from pre-primary level. Pre-primary classes include Nursery, K.G., Pre-basic, Play school, etc.

**1.2 Primary School (P):** Schools providing education from Standard 1 and upward up to and inclusive of Standard V are classified as Primary Schools.

**1.3 Middle School (M):** Schools providing education from Standard VI and upward up to and inclusive of Standard VIII are classified as Middle Schools. A School with Class 1 to VIII is treated as two units, i.e. one Primary School and one Middle School.

**1.4 Secondary School (S):** Schools providing education from Standard IX and upwards up to and inclusive of Standard X are classified as Secondary Schools. A composite school with 1 to X standard is treated as three separate units and counted separately under the categories of Primary School, Middle School and Secondary School.

**1.5 Senior Secondary School (SS):** Schools and colleges that provide education for Standards XI and XII and first and second year of the Pre-University Course fall under this category. There are Senior Secondary Schools with Standard I and upwards up to Standard XII.

**1.6. Degree College:**

**(i) Arts/Science/Commerce:** These are all educational institutions that provide post-PUC level education leading to University degree/diploma in any subject or combination of subjects and also post-graduate levels of education. The college offering courses in Arts, Science or Commerce either separately or in combination are covered under this category.

**(ii) Engineering College (E):** It is a graduate/post-graduate degree college providing Bachelor of Engineering (BE) or Bachelor of Technology (B. Tech.) or post-graduate engineering degrees like M.Tech.

**(iii) Medical Colleges:** These are graduate/post-graduate degree colleges providing MBBS or equivalent degree in alternative medicine like Ayurveda, Unani, Homeopathy etc. or post-graduate medical degrees like M.D or equivalent in the above branches of medicine.

**1.7. Management College/Institute (MI):** It offers courses like Diploma in Management, Post- Graduate Diploma in Management, Masters of Business Administration (MBA) and specializations in different disciplines of Management like Marketing, Human Resources Development (HRD) etc.

**1.8. Polytechnic (Pt):** An Institution providing certificate/diploma (not equivalent to degree) in any technical subject like engineering, vocational courses like embroidery, fashion designing etc. It may be both Government and Private.

**1.9. Vocational School/ITI:** It is a vocational training institute imparting trainings in specific fields acquiring necessary skill, which will make the trainees employable or create them opportunities of self-employment. Trainings offered by Industrial Training Institutes (ITI) fall under this category.

**1.10. Non-formal Education/Training Centre(NFTC):** Non-vocational education centers, established by the Central and State Governments provide educational facilities to the interested persons irrespective of educational qualification, and age. These education centers are open to all.

**1.11. Special School for Disabled:** There are Government and Government recognized institutions/organizations engaged for providing education to different groups of disabled persons.

## **2. Medical Facilities:**

**2.1 Hospital-Allopathic and Hospital-Alternative medicine:** A hospital is an Institution, where sick or injured are given medical or surgical care. Bed strength differs from hospital to hospital ranging from 31 to 500 depending upon whether these are sub-district, sub-divisional or district hospitals. If there are hospitals providing facilities under different systems of medicines such as, Allopathy, Ayurveda, Unani and Homeopathy etc., these details are given separately.

**(a) Allopathy:** The system of medical practice, which treats disease by the use of remedies which produce effects different from those produced by the disease under treatment.

**(b) Ayurveda:** Ayurveda means ‘Science of life’. The philosophy of Ayurveda is based on the theory of Pancha Mahabootas (Five elements) of which all the objects and living bodies are composed of. The combination of these five elements are represented in the form of Tridosha: Vata, Pitta and Kapha. These three ‘doshas’ are physiological entities of living beings. Ayurveda developed into eight distinct specialities, i.e., Internal Medicine, Pediatrics, Psychiatry, Eye and ENT, Surgery, Toxicology, Geriatrics and Science of virility. Two types of treatments, Preventive and Curative, are given in Ayurveda.

**(c) Unani:** Treatment of Unani consists of three components, namely, preventive, promotive and curative. Unani system of medicine has been found to be efficacious in conditions like Rheumatic Arthritis. Jaundice, Filarisis, Eczema, Sinusitis and Bronchial Asthma. For the prevention of the disease and promotion of health, the Unani System emphasizes six essentials: pure air, food and water, physical movement and rest, psychic movement and rest, sleep and wakefulness and retention of useful materials and evacuation of waste materials from the body.

**(d) Homoeopathy:** Treatment in Homoeopathy, which is holistic in nature, focuses on an individual’s response to a specific environment. Homoeopathic medicines are prepared mainly from natural substances such as plant products, minerals and animal sources. Homoeopathic medicines do not have any toxic, poisonous or side effects. Homoeopathic treatment is economical as well and has a very broad public acceptance.

**2.2 Community Health Centre (CHC):** Community Health Centres are designed to provide referral health care for cases from PHC and those in need of specialist health care approaching the CHC directly. 4 PHCs are included under each CHC thus catering approximately 80,000 populations in tribal/hilly areas and 1,20,000 populations

for plain areas. CHC is a 30- bedded hospital providing specialist care in Medicine, Obstetrics and Gynaecology, Surgery and Paediatrics.

**2.3 Primary Health Centre (PHC):** A Primary Health Centre is the first contact point between a village community and the Government medical officer. A PHC covers a population of 20,000 in hilly, tribal or difficult areas and 30,000 populations in plain areas with 4-6 indoor/observation beds. It acts as a referral unit for 6 sub-centres. It has a medical officer and para medical staff.

**2.4 Primary Health Sub-Centre (PHS):** A Primary Health Sub-centre is the first contact point between the primary health care system and the community. As per the population norms, one PHS is established for every 5,000 population in plain areas and 3,000 population in hilly/ tribal/ desert areas. Each PHS has a sanctioned strength of one male and one female health worker.

**2.5 Maternity and Child Welfare Centre (MCW):** It provides pre-natal and post-natal services for both mother and child. The services include regular check-up of pregnant women, giving folic tablets, counselling, delivery, immunization of children with check-up etc.

**2.6 TB Clinic (TBC):** The diagnosis and treatment of TB are functions of the general health services and hence it is a part and parcel of Primary Health Care. Specialized units such as the District Tuberculosis Centre (DTC) act as referral centres. TB clinics are established by the Government of India under the National Tuberculosis Control Programme and implemented through a network of DTC. The DTC is the nodal point for TB control activities in the district and it also functions as a specialized referral centre. The functions of sub-district level Tuberculosis Unit (TU) are implementation, monitoring and supervision of TB control activities in its designated geographical areas.

**2.7 Health Centre:** Clinic where medicine and medical supplies are dispensed. It has no in-patient facility. A clinic (or an outpatient clinic) is a small private or public health facility that is devoted to the care of outpatients, often in a community, in contrast to larger hospitals, which also treat inpatients.

**2.8 Dispensary:** Place where patients are treated and medicines provided but with no in-patient facility. Immunizations, MCH Services and sometimes pathological tests are carried out here. It may be of allopathic or any alternative medicine.

**2.9 Veterinary Hospital:** Mostly run by the State Government or local body for treatment and preventive measures against diseases of domestic animals like cows, buffaloes etc in rural areas.

**2.10 Mobile Health Clinic:** These are Mobile vans well equipped with a range of health services to villages located far away from the CHCs, PHCs or any public health sources. The vans visit villages on designated days to deliver the health care services. The services generally offered are OPD, ante- natal and post-natal, B.P. examination, X-ray, ECG, Immunization, First Aid etc.

**2.11 Family Welfare Centre:** Check-up and counselling is provided to the pregnant and married women regarding small family norm and devices for having a small family. Temporary and permanent contraceptive devices are provided here.

**2.12 Nursing Home:** A nursing home is a long –term care facility licensed by the state that offers 24- hour room and board and health care services including basic and skilled nursing care, rehabilitation and a full range of other therapies, treatments and programs to old and sick people. The difference between a hospital and a nursing home is that a

nursing home gives importance to convalescence from a disease while a hospital gives medical treatment for the disease.

**2.13 Medicine Shop:** A shop which sells drugs and medicines of any system of medicine viz. allopathic, homeopathic, ayurvedic or unani medicines, is considered as a medicine shop. Sometimes some shops and Paan shops also keep ordinary medicines, like Crocin, Burnol etc. These shops are not taken as medicine shops.

**3. Drinking water:** The following are the main source of drinking water facility (ies) available in the village.

**3.1 Tap Water-treated:** This source of drinking water refers to a source of drinking water which is provided to the villagers through pipes within their premises or to the villagers through common taps (public taps/community water points) by the Government departments, local bodies, panchayats, public or private estate agencies, etc. after treatment. Such a source is treated as 'Tap water from treated source'.

**3.2 Tap Water-un-treated:** If the villagers are drawing drinking water through pipes either directly from a well or bore well or after pumping the well or tube well water, or the water is supplied through pipes to the households of the village or through public taps without treatment. Such a source is treated as 'Tap water from un-treated source'.

**3.3 Covered Well (CW):** A well that is (1) covered on sides from run-off water (i.e., excess water from rain, snowmelt or other sources flows over the land) through a wall lining or casting that is raised above ground level on a platform that diverts spilled water away from the well and (2) covered so that bird droppings and animals cannot fall down the hole. It is considered as covered well.

**3.4 Un-covered Well (UW):** A well which is (1) un-covered on sides from runoff water, (2) un-covered from bird droppings and animals; or (3) both.

**3.5 Hand Pump (HP):** Hand pump means where ground water is taken out manually by operating a hand pump.

**3.6 Tube Well / Borehole (TW):** Tube well denotes the ground water source from where ground water is taken out through electrical or diesel pump. Spring, River/Canal, Tank/Pond/Lake are self-explanatory.

**4. Community Toilet Complex:** Community Toilet may be constructed and maintained by Gram Panchayats or Private NGOs like Sulabh Sauchalaya or likes.

**5. Rural Sanitary Mart or Sanitary Hardware Outlet (RSM):** It is an outlet dealing with the materials, hardware and designs required for the construction of not only sanitary latrines but other sanitary facilities such as compost pit, washing platform and other sanitation and hygiene accessories required for individuals, households and the environment in the rural areas.

**6. Community bio-gas or recycle of waste for productive use:** Many of the solid wastes having economic values but put for disposal can be recycled for reuse. For example, food, cow dung, leaves, vegetable, paper, wood, plastics, old cloth etc. However, some of the wastes are not recyclable. These are carbon paper, thermo coal etc. When recyclable solid wastes is subjected to decomposition, bio-gas could be produced under favourable conditions. These systems of recycling may be there at the village level organized by Gram Panchayats with technical support from Governments or non-government organizations.

## **7. Communication and Transport Facilities:**

**7.1 Post Office (PO):** Self-explanatory.

**7.2 Sub-Post Office (SPO):** Sub-post office includes Extra Departmental Post Offices and those providing franchise postal services and also part time services in lieu of some honorarium. The limited postal services include sale of stamps, receipt of letters and money orders and also distribution of letters.

**7.3 Post & Telegraph Office (PTO):** Telegraph office is set up by the Government to enable people to send or receive telegrams. If the phonogram facility is available (though the Telegraph office may not be equipped with Morse Code Transmitters), the village is considered to be having telegraph facility.

**7.4 Telephones (landlines):** If the village is having the Public Call Office (PCO) either run by the Post Office or by individuals or by a private shop, then the village is considered to be having telephone facility.

**7.5 Public Call Office (PCO)/Mobile PCO:** Self-explanatory.

**7.6 Mobile Phone Coverage:** Mobile phones are now very common particularly in urban areas. Some villages by virtue of being in close proximity to the urban areas also enjoy the benefits of the mobile phone services. Even if a few villagers avail the services of mobile phones, then the village is considered to be having access to mobile phone.

**7.7 Internet Cafes/Common Service Centres (CSC):** If the village is having the facility of Cyber Cafes or shops owned by private individuals providing the facility of surfing of the internet, then the village is considered to be having access to internet/cyber cafe facility. Government of India formulated the scheme of CSC with the vision of providing all government services in an integrated manner at the door step of the citizen at an affordable cost even in the remotest corners of the country through a combination of it based as well as non-IT based services.

**7.8 National Highway (NH):** These are main highways running through the length and breadth of the country. Each NH is numbered like NH-1, NH-2 for easy identification.

**7.9 State Highway (SH):** These are roads of a state linking district headquarters and important cities within a State and connecting them with NHs or Highways of the neighboring States.

**7.10 Major District Roads (MDR):** These are important roads within a district, serving areas of production and markets and connecting these with each other or with the main Highways.

**7.11 Other District Roads (ODR):** These are roads serving rural areas of production and providing them with outlet to market centres, taluka headquarters, block development headquarters or other main roads.

**7.12 Village Road:** The approach to village refers to the state of road etc., leading to the village. This is to see whether the village is approachable both in fair and foul weather, and whether it is inaccessible only for some time in the year.

**7.13. Black-Topped (Pucca) Road (BTR):** A road provided with a bituminous surfacing.

**7.14. Gravel (Kuchha) Road (GR):** A road constructed using well compacted crushed rock or gravel material (coarse sand, small stones), which is fairly resilient and does not become slippery when wet.

**7.15 Water Bound Macadam (WBM):** This is the road layer made of crushed or broken mixture of sand and rock fragments mechanically interlocked by rolling and voids filled with screening and binding material with the assistance of water.

**7.16 Foot Path (FP):** A trodden path for the use by pedestrians and in some cases bicycles. The Foot Paths are not suitable for vehicular traffic except bicycles in some cases. Most of the interior/forest villages are connected by Foot Paths.

**8. Banks and Credit Societies:** Banking facility means a place where a person can operate a bank account.

**8.1 Commercial Bank (CB):** These may be banks wholly owned by the Government of India. or by Indian or Foreign Companies.

**8.2 Cooperative Banks (Coop. B):** A co-operative bank is a financial entity which belongs to its members, who are at the same time the owners and the customers of their bank. Cooperative banks are often created by persons belonging to the some local or professional community or sharing a common interest. These banks are registered under the Cooperative Societies Act. The cooperative banks are regulated by RBI and are covered by the Banking Regulations Act, 1949.

**8.3 Agricultural Credit Society (ACS):** Major objectives of the ACS are to supply agricultural credit to meet the requirements of funds for agricultural production, the distribution of essential consumer commodities, the provision of storage and marketing facilities and for light agricultural implements and machinery.

**8.4 Non-Agricultural Credit Society (NCS):** These societies include consumer cooperative societies and also credit cooperative societies of certain categories of persons like teachers, health workers, etc.

## **9. Miscellaneous Facilities:**

**9.1 Self-help Group (SHG):** Self-Help Groups are groups of between 10-25 women created by either NGOs or under the SGSY (Swarnjayanti Gram Swarozgar Yojana) for the purposes of meeting local credit needs. They are sometimes called Mahila Mandals in villages.

**9.2. Public Distribution System (PDS) shop:** The shops through which some essential commodities are sold by the government at subsidized rates. They may also be known as ration shops and control shops.

**9.3. Mandis/Regular Market:** These are those clusters of shops with or without fixed premises which are open on at least six days a week and opens at least from morning hours to dusk.

**9.4. Weekly Haat:** These are those clusters of shops with or without fixed premises which are open once a week.

**9.5. Agricultural Marketing Society:** It is a common platform to analyse the issues among all the individuals and institutions in the field of agricultural marketing.

**9.6. Nutrition Centre:** Integrated Child Development Services (ICDS): The Integrated Child Development Services (ICDS) Scheme set up by the Government of India with the objective of providing following package of services to the children under 6 years and pregnant and lactating mothers in villages such as; Immunization, Health Check-up, Referral Services, Pre-school Non-formal Education and Nutrition & Health Education.

**9.7. Anganwadi Centre:** Each centre under the ICDS scheme is run by an Anganwadi Worker. One Anganwadi worker is appointed for specified population of the village. They are basically local women. They are assisted by Anganwadi helper. They provide pre-school non-formal education at the Centre and provide food to the children.

**9.8. Accredited Social Health Activist (ASHA):** ASHA is a health activist in the community who will create awareness on health and its social determinants and mobilize the community towards local health planning and increased utilization and accountability of the existing health services. She would be a promoter of good health practices. She will also provide a minimum package of curative care as appropriate and feasible for that level and make timely referrals. She will act as a motivator of different types of health related activities. Unlike ANM, she will not be involved in any clinical activities like immunization.

**9.9. Sports Club/Recreation Centre:** Indoor and out-door games are arranged by the Club and activities like wrestling, Judo Karate etc. are also done there.

**9.10. Cinema/Video Hall (CV):** If regular cinema houses licensed by Government is available, then the town/village is considered to be having the facility of Cinema Hall. Video hall owners screen films in their own or hired premises.

**9.11. Public Library:** Books are kept there which can be accessed by the public on loan basis. These may be sponsored by Government or Local Body or Panchayat or any influential person. Free service or nominal charges are made for using the facility.

**9.12. Public Reading Room:** Here the public may read newspapers and magazines. These may be sponsored by Government or Local Body or Panchayat or any influential person.

**9.13. Newspaper Supply:** The availability of the Newspaper(s), both in English or vernacular, in the village is considered to having the said facility.

**10. Availability of Electricity/Power:** If power is actually available, whatever may be the form of its use, it is indicated affirmative. If the village is having electricity for domestic purposes and the residents are using the same for domestic use, then it is considered that domestic power supply is available. If the electricity authority has not given domestic supply to the households on their request and people are using unauthorized electricity either by stealthily or misuse the supply meant for agricultural or industrial purposes, then it is not considered as availability of electricity for domestic purposes. However, if the village goes out of power due to temporary technical problems such as, transformer failures, theft of electrical equipment, etc., it is considered that electricity is available. Supply of electricity is considered available even when there is a temporary ban on new domestic connections. Connections to residential houses, bungalows, clubs, hostels and hospitals run on non-commercial basis, charitable, educational and religious institutions are included in the domestic category.

**10.1 Power Supply for domestic use:** This category includes electricity used only for domestic consumption.

**10.2 Power supply for agricultural use:** This category includes all electricity connections given to the farmers for conducting various agricultural activities including irrigation.

**10.3 Power supply for commercial use:** This category includes electricity connections given for workshops, industries etc. or for any commercial purposes.

**10.4 Power supply for all uses:** This category includes electricity connection is available for domestic use, agricultural use, and for any commercial purposes.

**11. Land Use Pattern:** The land use area of the villages is given in hectares. The land use pattern in the Village Directory conform to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry has recommended the maintenance of records of land use pattern under the 9 categories as indicated in the Village Directory.

**12. System of drainage:** Generally, by drainage system, we mean the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in towns, which are not provided with such underground sewerage system, it is mentioned whether it has open drainage system. There may be possibility of the town having both closed as well as open drainage systems.

**13. Type of latrines:** The data on various types of latrines both public and private together are collected. The three types of latrines considered here are, Pit Latrine, Flush/Pour Flush Latrine and Service Latrine.

(i) **Pit System:** The latrines are attached to the pit that is dug into the ground for the reception of night soil, are reckoned as pit latrine.

(ii) **Flush/pour flush:** A flush latrine uses a cistern or holding tank for flushing water and has a water seal, which is a U-shaped pipe, below the seat or squatting pan that prevents the passage of flies and odours. A pour flush latrine uses a water seal, but unlike a flush latrine, a pour flush latrine uses water poured by hand for flushing (no cistern is used).

(iii) **Service:** Type of latrine from where night soil is removed manually by scavengers. All other types of latrines are covered under “Others” category.

**14. Protected Water Supply- Source and capacity of Storage system:** There are various sources of water supply and its storage system in the town.

**14.1 Service Reservoir:** A service reservoir is a water storage container that holds clean water after it has been treated in a water plant, and before it is piped to the end users. These containers are covered, and are designed to keep the water safe from contamination. Their main purpose is to provide a buffer within the water supply system so that water supplies can be maintained across periods of varying demand.

**14.2 River Infiltration Gallery:** Infiltration Galleries are capable of supplying large quantities of water, and are used where wells are unable to supply water needs, i.e. where an impermeable rock barrier affects well efficiency, or where surface water sources are too shallow for intake screens. Infiltration galleries are one or more horizontal screens placed adjacent to (on-shore), or directly underneath (bed-mounted), a surface water source.

**14.3 Bore Well Pumping System:** A bore well is a well of 6" to 12" in diameter drilled into the earth for retrieving water. The depth of a bore well can vary from 50 feet to 3000 feet. Water is pumped out to surface through electricity/generator.

**14.4 Pressure Tank:** Tank that is used to ensure consistent water pressure and for storage of water. Usually located in basement of house but sometimes (in older settings) located in well pit.

**15. Road lighting (Points):** Road lighting means the number of street lights that are maintained in the town.

**16. Orphanage Home:** Orphanage is the name to describe a residential institution devoted to the care of orphans – children whose parents are deceased or otherwise unable to care for them. Parents, and sometimes grandparents, are legally responsible for supporting children, but in the absence of these or other relatives willing to care for the children, they become a ward of the state, and orphanages are a way of providing for their care and housing.

**17. Working women's hostel:** These may be recognised or non-recognised by any public authority. The data on number of working women's hostels available in the town are collected with number of seats.

**18. Old Age Home:** There are two types of Old Age Homes in India. One is the "Free" type which cares for the destitute old people who have no one else to care for them. They are given shelter, food, clothing and medical care. The second type is the "Paid" home where care is provided for a fee. Nowadays, such "Retirement" homes have become very popular in India and they are well worth considering.

**19. Stadium:** A stadium is a place, or venue, for (mostly) outdoor sports, concerts or other events, consisting of a field or stage partly or completely surrounded by a structure designed to allow spectators to stand or sit and view the event.

**20. Auditorium/Community Hall:** These are the places where meetings, social functions etc. are organised.

## 2011 CENSUS FINDINGS

**(a) Distribution of Population in rural/urban areas and number of Households:**

According to the 2011 Census, the total population of the Hyderabad district stands at 39,43,323 with 20,18,575 males and 19,24,748 females. The total number of normal Households in the district are 8,49,051 as against 2,09,27,188 households in Andhra Pradesh. The district stands at 10<sup>th</sup> rank in the State as far as population is concerned. Due to entire urban the total population of the district 39,43,323 persons i.e., 100% are residing in urban areas. The proportion of urban to total population regarded as an index of urbanization, and it is 100% for Hyderabad district.

In this district, there are 16 Mandals. All mandals are urban. In terms of population Bahadurpur Mandal occupies 1st place with 11.87% of the district population. While, Ameerpet Mandal reported least population, accounting 1.50% of the district population.

The urban population is distributed among 3 urban units, of which one is Statutory Town and the remaining 2 are Census Towns. GHMC (M.Corp+OG) part of Hyderabad has largest population, whereas Osmania University (CT) is the smallest town with a population of 11,224. There is no town in the district, which has less than 5,000 population.

**(b) Size, Class and Status of towns, Population growth, Density, Sex ratio, Work Participation rate , Literacy rate and Religion in the District:**

**Size, Class and Status of Towns :**

During every Census the number of Census Towns and Statutory Towns changes due to the addition of new Census Towns, declassification of old Census Towns, notifying of new Statutory Towns, de-notifying of old Statutory Towns, etc., for the purpose of analysis of varied demographic characteristics, the urban areas have been divided into six classes by size of population of the towns in the district.

GHMC (M.Corp+OG) & Secunderabad (CB) are categorized as class-I towns, while Osmania University (CT) is categorised as class V town. There are no towns categorized as Class-II, Class-III, Class-IV and Class-VI.

**Population Growth:**

The population of the district was 38,29,753 as per 2001 Census and has gone up to 39,43,323 persons in 2011 adding 1,13,570 persons during the decade, 2001-2011. The growth rate revealed by the district 2.97% is less than the State growth of 10.98% during the decade.

Hyderabad district ranks 23rd in growth rate 3.0% over the decade among 23 districts in the State. The urban growth rate is recorded as 3.0% and there is no rural part in Hyderabad.

**Density:**

The overall density of population in the district is 18,172 persons per sq.km and is above the State average of 308. Among the urban areas GHMC (M.Corp+OG) town recorded highest 19,543 persons per sq.km, followed by 9,553 persons in Secunderabad (CB). Least density, i.e. 1,734 persons per sq. km has been reported in Osmania University (CT).

**Sex Ratio:**

Hyderabad district possessed 954 females per 1,000 males, while it was 933 in 2001 Census. It is lower than the State average sex ratio 993. The district occupied 23<sup>rd</sup> rank in respect of sex ratio among 23 districts. Maredpalle Mandal has the highest sex ratio of 1003, while the lowest sex ratio of 919 has observed at Tirumalgiri Mandal. Among urban units 956 has reported highest sex ratio of GHMC (M.Corp+OG) part of Hyderabad and Osmania University (CT) reported a lowest sex ratio of 814.

**Work Participation Rate:**

The work participation rate for total workers is defined as percentage of total workers to total population. The work participation rate in Hyderabad district is 35.8%. Again the percentage of Main workers to total workers stands at 77.6%. Among the main workers as seen for the percentage of workers of 2011 over 2001 has drastically decreased. The female workers participation has gone up from 9.9% in 2001 Census to 19.1% at 2011 Census.

The total workers participation rate separately for males and females in the entire urban area is 51.8% and 19.1% respectively.

**Literacy Rate:**

Calculating the effective literacy rate, children in 0-6 age group have been excluded. The district returned 2,89,21,551 literates with entire urban population forming 83.2% of the population of the district.

Again within the urban areas, male and female literacy rates separately worked out to 87.0% and 79.3%.

**Religion:**

In this district out of the total population, religion wise there are 20,46,051 Hindus, 17,13,405 Muslims, 87,522 Christians, 11,446 Sikhs, 1,268 Buddhists and 19,560 persons are Jains. Other religious members inclusive of unclassified are 1,929 members who were not stated the religion are 62,142.

**(c) Scheduled Castes and Scheduled Tribes of Earlier Censuses:**

To uplift the social and economical status of Scheduled Castes and Scheduled Tribes, one of the basic requirements of these populations is the availability of data on age, sex, marital status, economy, education, fertility etc.

In this regard, these particulars are being collected in each Census from 1951 onwards and provided to planners and administrators to take-up necessary steps to evolve suitable plans and welfare measures for the development of Scheduled Castes and Scheduled Tribes.

The President of India has notified some castes, races or tribes or parts of groups within the castes, races or tribes as Scheduled Castes under Article 341 of the Constitution of India. Similarly, under Article 342 of the Indian Constitution, President of India has declared all such tribes or tribal communities or parts of groups within the tribes or tribal communities as Scheduled Tribes. The list of Scheduled Castes and Scheduled Tribes are notified for each State or Union Territory and are valid only within the jurisdiction of that State and Union Territory. The list of Scheduled Castes and Scheduled Tribes is provided in this volume under the chapter on Census concepts'.

The Scheduled Caste population in the district has increased a percentage population of -19.3% from 3,07,248 in 2001 to 2,47,927 in 2011. The Scheduled Tribe population has increased a percentage population of 41.6% from 34,560 in 2001 to 48,937 in 2011.

A table relevant to the SC and ST over the decadal changes in population in chronological order is shown below with percentage of variation.

<b>A Statement showing the decadal variation in SC/ST population in Hyderabad district in comparison to Andhra Pradesh State between 1961-2011 Censuses</b>				
<b>Census Year</b>	<b>SC Population (Percentage of Decadal Variation)</b>		<b>ST Population (Percentage of Decadal Variation)</b>	
	<b>District</b>	<b>State</b>	<b>District</b>	<b>State</b>
1961	1,72,172(-)	49,73,616( -- )	642(-)	13,24,368( -- )
1971	2,04,764(+18.9)	57,74,548(+16.10)	1,026(+59.8)	16,57,657(+25.17)
1981	2,16,485(+05.7)	79,61,730(+37.88)	14,488(+1312.1)	31,76,001(+91.60)
1991	2,78,739(+28.8)	1,05,92,066(+33.04)	28,946(+99.8)	41,99,481(+32.23)
2001	3,07,248(+8.0)	1,23,39,496(+16.50)	34,560(+0.9)	50,24,104(+19.64)

**BRIEF ANALYSIS OF PCA****TABLE 1: DECADAL CHANGE IN POPULATION OF MANDALS BY RESIDENCE, 2001-2011**

Sl. No.	Name of Mandal	Population						Percentage decadal variation 2001-2011			Percentage Urban Population	
		2001			2011			Total	Rural	Urban	2001	2011
		Total	Rural	Urban	Total	Rural	Urban					
1	2	3	4	5	6	7	8	9	10	11	12	13
1	Hyderabad (M Corp.) (Part)	3612427	0	3612427	3718651	0	3718651	2.94	0.00	2.94	100.00	100.00
2	Osmania University (CT)	11224	0	11224	6762	0	6762	-39.75	0.00	-39.75	100.00	100.00
3	Secunderabad Cantonment Board (CB)	206102	0	206102	217910	0	217910	5.73	0.00	5.73	100.00	100.00
<b>District Total :</b>		<b>3829753</b>	<b>0</b>	<b>3829753</b>	<b>3943323</b>	<b>0</b>	<b>3943323</b>	<b>2.97</b>	<b>0.00</b>	<b>2.97</b>	<b>100.00</b>	<b>100.00</b>

The table gives the details of the decadal growth rates by the residents in the district. The district has registered a growth rate of 2.97 during the decade. As the district is totally Hyderabad urban the growth rates is 2.97. Osmania University (CT) shows the decline in total population i.e. -39.75%. Percentage of the urban population is 100%.

**TABLE 3 : NEW TOWNS, DE-NOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2011 CENSUS**

		<b>Name of Town</b>
		<b>1</b>
<b>(a)</b>	<b>New</b>	
	(i) Statutory town	Nil
	(ii) Census town	Nil
<b>(b)</b>	<b>Denotified</b>	
	(i) Statutory towns of 2001 census denotified and also did not satisfy the criteria to be treated as census towns.	Nil
	(ii) Statutory towns of 2001 census denotified but identified as census towns based on demographic and economic criteria	Nil
	(iii) Census towns of 2001 census are notified as statutory town in 2011 census	Nil
<b>(c)</b>	<b>Declassified</b>	Nil
<b>(d)</b>	<b>Wholly merged with other town(s)</b>	Nil

\*Declassified means the census towns of 2001 census which failed to satisfy the demographic and economic criteria.

The above table shows the no changes in urban areas of the district.

**TABLE 4 : SEX RATIO OF THE STATE AND DISTRICT, 1901-2011**

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	985	983	999	944	1,066	931
1911	992	991	1,000	948	993	937
1921	993	994	986	956	1,011	936
1931	987	989	966	925	1,096	886
1941	980	981	975	944	1,221	921
1951	986	985	987	988	—	988
1961	981	988	951	929	—	929
1971	977	983	949	922	1,017	918
1981	975	984	948	920	—	920
1991	972	977	959	933	—	933
2001	978	983	964	933	—	933
2011	993	996	987	954	—	954

*Note : Sex ratio has been defined here as the number of females per 1000 males*

The above table reports the sex ratio of the State and district from 1901 onwards. The table reveals right from 1901 to 2011; the sex ratio of the district is less than the State average. From 1901 to 1941 there was rural part in the district and the sex ratio was more than the State rural sex ratio. The urban sex ratio of the district is always less than the urban sex ratio of the state.

**TABLE 5: SEX RATIO BY MANDAL, 2011**

Sl. No.	Name of Mandal	Sex Ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Shaikpet	956	0	956
2	Ameerpet	984	0	984

		<b>Males</b>	<b>2018575</b>	<b>1045585</b>	<b>15416</b>	<b>1.47</b>	<b>14751</b>	<b>1.41</b>	<b>26869</b>	<b>2.57</b>	<b>988549</b>	<b>94.55</b>	
		<b>Females</b>	<b>1924748</b>	<b>367712</b>	<b>12892</b>	<b>3.51</b>	<b>8278</b>	<b>2.25</b>	<b>19288</b>	<b>5.25</b>	<b>327254</b>	<b>89.00</b>	

It is seen from the above table that the total workers are distributed by four categories of economic activity. Out of the total worker in the district 14,13,297 Cultivators are 2.00 percent, Agricultural labourers 1.63 percent, Household industry workers 3.27 percent. The next comes the Other Workers occupying the major share of 93.10 percent. The sex wise breakup shows that male workers out of 10,45,585 participation of 94.55 percent in other works, 1.47 percent as Cultivators, 1.41 percent as Agricultural labourers and only 2.57 percent in Household industry worker. Whereas out of total female workers in the district 3,67,712 more participation, i.e. 89.00 percent as Other Workers 3.51 percent as Cultivators, 2.25 percent as Agricultural labourers and 5.25 percent as Household Industry workers. The highest percentage of persons in Cultivators are show in Bandlaguda Mandal as 2.61 percent and less percent as 1.30 in Nampalle Mandal, Bahadurpura Mandal reports 3.12 percent the highest Agricultural labourers and lowest of 1.03 percent in Nampalle Mandal. In Household Industry, Shaikpet Mandal reports the highest percentage of persons 4.28 percent and lowest percentage is reported in Ameerpet Mandal with 2.27 percent. In the Other Workers category, Maredpalle Mandal reports the highest percentage of persons with 94.56. and the lowest percent of 91.74 in Bahadurpura Mandal.

**TABLE 35: DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY IN TOWNS, 2011**

Sl. No.	Name of Town	P/ M/ F	Total population	Total workers (main+ marginal)	Category of workers

		Females	3035	195	11	5.64	2	1.03	5	2.56	177	90.77
<b>Total</b>		Persons	<b>3943323</b>	<b>1413297</b>	<b>28308</b>	<b>2.00</b>	<b>23029</b>	<b>1.63</b>	<b>46157</b>	<b>3.27</b>	<b>1315803</b>	<b>93.10</b>
		Males	<b>2018575</b>	<b>1045585</b>	<b>15416</b>	<b>1.47</b>	<b>14751</b>	<b>1.41</b>	<b>26869</b>	<b>2.57</b>	<b>988549</b>	<b>94.55</b>
		Females	<b>1924748</b>	<b>367712</b>	<b>12892</b>	<b>3.51</b>	<b>8278</b>	<b>2.25</b>	<b>19288</b>	<b>5.25</b>	<b>327254</b>	<b>89.00</b>

The table reveals the town wise distribution of workers by sex in four categories of economic activity. Out of the 1413297 total workers in the urban areas of the district Other Workers occupy a higher part of the worker participation, i.e. 93.10 percent, Agricultural labourers 1.63 percent and 3.27 percent involved in Household industry 2.00 percent are categorized as Cultivators. Out of 10,45,585 the urban male workers 94.55 percent are categorized as Other Workers 1.41 percent are Agricultural labourers and 1.47 percent are Cultivators and 2.57 percent are involved in Household industry. Out of 367712 urban female workers 89.00 percent are Other Workers 2.25 percent are Agricultural labourers. 3.51 percent are Cultivators and 5.25 percent are engaged in Household industry.

**TABLE 42: SCHOOLS/ COLLEGES PER 10,000 POPULATION IN TOWNS, 2011**

Sl. No.	Name of the town	Type of educational institution (Approx. numbers)				
		Primary	Middle	Secondary / matriculation	Senior secondary	College*
1	2	3	4	5	6	7
1	GHMC (M Corp. + OG) (Part)	3	2	1	1	0
2	Secunderabad (CB)	3	2	1	1	0
3	Osmania University (CT)	7	7	6	7	3
<b>District: Hyderabad</b>		<b>3</b>	<b>2</b>	<b>1</b>	<b>1</b>	<b>0</b>

Note- \* College includes

Arts/ Science/ Commerce College (Degree Level and above)

The above table shows the approximate number of educational institutions, primary, middle, secondary, senior and colleges in towns of the district. The above table does not depict the exact number of institutions prevail in the towns, but this only shows projected figures in the ratio of educational institution for every 10,000 population.

**TABLE 43 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2011**

<b>Sl. No.</b>	<b>Name of the Town</b>	<b>Number of beds in medical institutions per 10,000 population (Approx. numbers)</b>
1	2	3
1	GHMC (M Corp. + OG) (Part)	29
2	Secunderabad (CB)	10
3	Osmania University (CT)	163
<b>District: Hyderabad</b>		<b>28</b>

The above table shows the number of beds in medical institutions in towns. The number of beds reported in the table as per 10,000 population and not the actual number of beds in the institution. GHMC (M.Corp.+OG) reports approximate number of 29 beds per 10,000 population, Secunderabad (C.B) reports 10 approximate number of beds per 10,000 population. Osmania University (C.T) reports 163 approximate number of beds per 10,000 population. Hyderabad district shows average of 28 beds for 10,000 population.

**TABLE 44: PROPORTION OF SLUM POPULATION IN TOWNS, 2011**

Sl. No.	Name of the town having slum	Total population	Slum population	Percentage of slum population to total population
1	2	3	4	5
1	GHMC (M Corp. + OG) (Part)	3718651	1133938	30.49
2	Secunderabad (CB)	217910	30250	13.88
<b>Total</b>		<b>3936561</b>	<b>1164188</b>	<b>29.57</b>

The above table shows the total slum population and the percentage of slum population to the total population. The total slum population of the district is 11,64,188 and the percentage of slum population to the total population is 29.57 percent.

**TABLE 45: MOST IMPORTANT COMMODITY MANUFACTURED IN TOWNS, 2011**

Sl. No.	Name of the town	Name of three most important commodities manufactured
1	2	3
1	GHMC (M Corp. + OG) (Part)	Metal Products, Paper Products, Electrical Products
2	Secunderabad (CB)	Aluminium Utencils, Gas Stoves, Small Machine Parts
3	Osmania University (CT)	

The above table shows the most important commodities manufacture in the towns of the district, it is noticed that metal products, paper products and electrical products are the three imported commodities manufactured in GHMC (M.Corp.+OG). Alluminium Utensils, Gas stoves, small machine parts are some of the three important commodities manufactured in secunderabad (C.B).

## **ENSURE REGISTRATION OF EVERY BIRTH AND DEATH**

**REGISTRATION OF BIRTHS & DEATHS IS COMPULSORY  
UNDER RBD Act. 1969**

BIRTHS AND DEATHS ARE REGISTERED AT THE GRAM PANCHAYAT/  
MUNICIPAL /CANTONMET OFFICE WHERE THE EVENT OCCURRED

**REGISTER BIRTHS AND DEATHS WITHIN 21 DAYS OF THE EVENT**

### **BENEFITS OF REGISTRATION**

**BRIEF DESCRIPTION OF PLACES OF RELIGIOUS, HISTORICAL OR  
ARCHAEOLOGICAL IMPORTANCE IN VILLAGES AND PLACES OF  
TOURIST INTEREST IN THE TOWNS OF THE DISTRICT**

Places of religious, historical or archaeological importance in the district are presented in the following statement:

<b>Sl.No</b>	<b>Name of the Monuments</b>	<b>Locality</b>	<b>Brief History of the Monuments</b>	<b>Act under which it was protected</b>
1	2	3	4	5
1	Mushirabad Mosque	Mushirabad	Built by Abdullah Qutub Shahi (1626-72 AD)	The Hyderabad Ancient Monuments preservation Act 1337 F. Repealed in Andhra Pradesh Act VII of 1960
2	Khairati Begum's Tomb & Mosque	Khairatabad	These typical Qutub Shahi buildings which are attributed to Khairati Begum, Ibrahim Qutub Shahi's daughter, occupy a picturesque site near the Hussainsagar tank	-do-
3	Hakim's Tomb	Toli Chowki (Golconda) (Hakimpet)	This Tomb which is ascribed to a physician of the last king of Golconda and the Mosque and sarai attached to it from a picturesque group of buildings perched on a hillock about 4.83 Km. (3miles) North-East of Golconda	-do-
4	Shaikpet Mosque and Sarai	Shaikpet (Golconda)	This mosque and the sarai attached to it are in typical Golconda style	-do-
5	Mausolea of Qutub Shahi Kings including Hammam Gardens etc.	Shaikpet	1.5 miles North of the Golconda fort tombs of kings of Golconda are situated from Sultan Quli the founder to Abdullah Qutub Shahi and their relatives. The last (8th) king was buried at Kuldabad (Aurangabad District)	-do-
6	Khajana Building Mueseum	Golconda	Late Qutub Shahi Architecture	-do-

<b>Sl.No</b>	<b>Name of the Monuments</b>	<b>Locality</b>	<b>Brief History of the Monuments</b>	<b>Act under which it was protected</b>
1	2	3	4	5
7	Shamsheer Kota	Golconda	Late Qutub Shahi Architecture	-do-
8	Prema Mati's Mosque	Hyderabad	Situated on either side of the road leading to Osmansagar tank these two structures are attributed to the two Hindu sisters who were the favourites of Abdul Hasan Tana Shah	-do-
9	Tara Mati's Baradari	Mohammadnagar (Golconda)	-do-	-do-
10	Toli Masjid	Hyderabad	Built by Abdullah Qutub Shahi (1626-72 AD)	Andhra Pradesh Act VII of 1960
11	Mia Miskh's Mosque, Hammam and Sarai	Puranapul (Hyderabad)	This is a typical Mosque in late Golconda style and has beautiful Nask inscriptions and cut-plaster work. They are the work of Mia Miskh and Absinian Valet of Abdul Hasan Tana Shah and constructed in 1678 AD.	The Hyderabad Ancient Monuments preservation Act 1337 F. Repealed in Andhra Pradesh Act, VII of 1960
12	Gunfoundry	Hyderabad	Late Medieval period	Andhra Pradesh Act VII of 1960
13	Mons Raymond's Oblisk	Musarambagh	This is the last resting place of Michel Joachim Marie Raymond, a French Officer, who was originally in Tipu Sultans' Services subsequently joined the Nizam's service.	The Hyderabad Ancient Monuments preservation Act 1337 F. Repealed in Andhra Pradesh Act VII of 1960
14	Badshahi Ashur Khana	Hyderabad City	Qutub Shahi Architecture built by Mohd. Quli Qutub Shahi for keeping the Alampur banners of H.Hussain grandson of Prophet Mohammed.	-do-
15	Old Gate of Dabilpura	Hyderabad City		-do-

<b>Sl.No</b>	<b>Name of the Monuments</b>	<b>Locality</b>	<b>Brief History of the Monuments</b>	<b>Act under which it was protected</b>
1	2	3	4	5
16	Macca Masjid	Hyderabad City	Typical specimen florid Qutub Shahi architecture principal mosque in Hyderabad City construction started by Mohd. Qutub Shahi of Golconda (1611-26 A.D) but completed by Aurangazeb in 1698 A.D.	-do-
17	Khairat Khan's Tomb	Hyderabad City (Sultan Shahi)	This is the resting place of Khairat Khan who was Abdullah Qutub Shahi's and Shah Jahan's Ambassador in the Court of Persia	Andhra Pradesh Act VII of 1960
18	Darga Hasarat Syed Shah Raziuddin	Gazibanda	Plended done with extensive dalans with olonnodis of Ashlar Masonry built by Sri Abdul Hasan Tana Shah in 1906 in memory of Syed Shah Raziuddin.	
19	Arminiam Cemetery	Uppuguda	Arminian Cemetery G.O.Rt. No. 1443 Edn. Dated 7.9.1977 R.R.Dist.El/3821/74, dated 13.1.77	
20	Akkanna Madanna's Temple	Shalibanda	Hindu Temple constructed by the Famous Golconda Ministers	The Hyderabad Ancient Monuments preservation Act1337 F. Repealed in Andhra Pradesh Act VII of 1960
21	Fortification & Baradari	Malkajgiri	R.R.Dist.No.4291/65	
22	Ancient Gate way called Puranapul	Ward No.231 Block-A within limits of Shahar E-Hyderabad (Hyderabad city)	Historical monuments constructed by Ibrahim Quli Qutub Shah the 3rd king of Qutub Shahi Dynasty (G.O. Rt.No. 626 Edn., dated 2.5.78)	

S.No	Name of the Monuments	Locality	Brief History of the Monuments	Act under which it was protected
1	2	3	4	5
23	Akkanna's Sarai (Maisaram)	Maisaram (Hyderabad city)	This is a sarai and a large well attributed to Akkanna	The Hyderabad Ancient Monuments preservation Act1337 F. Repealed in Andhra Pradesh Act VII of 1960
24	Grave and Mosque of Princes Hussain Begum, Abdulla Qutub Shahi's daughter	Janwada (Hyderabad city Suburb)		The Hyderabad Ancient Monuments preservation Act1337 F. Repealed in Andhra Pradesh Act VII of 1960

Source : *District Census handbook, 1981.*

### Places of tourist interest:

Hyderabad has a cosmopolitan population. The city has a genial and hospitable atmosphere. Population, architecture, linguistic composition – everything mirrors the basic unity and underlines the regional diversity in India. Bolaram, where the Southern home of the President of the Indian Union the ‘Rashtrapathi Nilayam’ is located, the famous Salarjung Museum and a host of other historical monuments contribute to its charm and glory. Hyderabad city contains innumerable archaeological, historical, educational and recreational places of interest and is a tourist paradise. The Golconda fort, Qutub Shahi Tombs, the famous Charminar, Macca Masjid and Falaknuma Palace are some monuments of historical importance. In addition to these, there are places of educational, cultural and recreational interests such as Osmania University, the majestic state library building, the Hussain Sagar, the Naubath Pahad with Birla Planetorium and the Kala Pahad with the famous Birla Mandir, the abode of Lord Venkateswara.

### Golconda Fort :

It is situated at a distance of 11.5 km. outside the city. It was built on picturesque granite hill about 122 metres high and surrounded by a rampart. This legendary fort, once it was famous for its diamond market, was the capital of the Qutub Shahi Kings, who ruled the surrounding territories from 1518 to 1687 A.D. Now partly in ruins, it is a massive structure, surrounded by a huge wall with 8 gates of which only four are in use now for the visitors. The fort originally belongs to the Kakatiya rulers who ruled the surrounding areas with Warangal as their capital. They ceded the fort to the Bahmanis, who changed its mud construction into

masonry. From the Bahamanis, Golconda passed on to the hands of their successors the Qutub Shahis. The most remarkable feature of this fort is its system of acoustics whereby a clapping of hands at the entry gate can be heard at the top of the fort, some 19 meters high. Water was raised by an ingenious system through laminated clay pipes and Persian wheels to cool the roof gardens and high walled palaces. The fort was attacked twice by Emperor Aurangazeb who succeeded in taking it in the second attempt in 1687 A.D., after a siege lasting for eight months and with the help of a treacherous Qutub shahi General. The fort is now approached through the Banjara Darwaja which is to the South-east of the tombs. On the summit of the hillfort there is a Baradari. It is a three storied pavilion with open arches on all sides giving a magnificent view of the country around. In a corner of Baradari, there was an opening of underground passage leading to Gosha Mahal at a distance of about 8 km. the fort, though in ruins, is worth visiting.

### **Qutub Shahi Tombs :**

About a kilometer to the North of Golconda fort, there are the tombs of the Qutub Shahi rulers. These tombs mark the third and the final phase of architecture that flourished during the 16th and 17th centuries A.D. These tombs were constructed during Qutub Shahi period in a large garden called Langar Faiz Ather. The tomb of Abdullah Qutub Shah is situated outside this garden, while that of Abul Hasan Tana Shah is situated in Khuldabad near Aurangabad in Maharashtra. The architecture of these mausoleums has a characteristic style with Hindu motifs like lotus, chain and pendant designs and pillars and lintel devices used in the construction.

### **Hussain Sagar Tankbund :**

The Hussain Sagar bund commonly known as Tankbund is a mile in length connects the twin cities of Hyderabad and Secunderabad. Hussain Sagar tank has a circumference of 18.4Kms and covers an area of 20.72 Sq.Km. This tank was built by Ibrahim Quli Qutub Shah at the cost of more than three lakhs of Golconda rupees (A.D.1550-1580). Hussain Sagar tank offers a very beautiful scene. There are two boat clubs, attached to the tank. They are the Hyderabad Boat Club and the Secunderabad Boat Club situated respectively on the West and East sides of the tank. Recently, the name of the tank has been changed as ‘Vinayaka Sagar’ as the idols of Vinayaka (Ganesh) in the twin cities after Ganesh Navarathri are immersed into the tank on Anantha Chaturdasi.

### **Public Gardens :**

This spot is the usual recreational resort for the inhabitants of the city as well as outsiders. It is situated almost in the heart of the city. Within the compound of these gardens, the Ajanta Pavilion, Health Museum and Archaeological Museum are located, where in the museum, about 4000 years old Egyptian Mummy is preserved. Interesting sections are prehistoric implements, sculptures, painting, inscriptions, illuminated manuscripts, coins, ancient arms, bidriware, Chinaware and textiles. In recent years, the Jawahar Bala Bharathi has also been established here. The imposing assembly hall and the jubilee hall, wherein, the Legislative Council meetings are also located here.

### **Naubat Pahad and Kala Pahad :**

There are two small hillocks opposite to the public gardens. During the reign of the Qutub Shahis proclamations were read from their top at the beat of the drum and this tradition was continued by Aurangazeb. In 1940 Sir Mirja Ismail, Prime Minister of the Nizam added two pavilions to these hillocks. A hanging garden has now been laid out and a planetarium constructed on the Naubat Pahad, while a marble temple of lord Sri Venkateswara has been constructed by the Birlas on the other.

### **Charminar :**

This is the most imposing structure erected in A.D. 1591 after the foundation of the city and it occupies a central position in the old city with four roads radiating in four directions i.e., North, South, East and West. It stands in the midst of the city like, a sentinel guarding entry to the main bazaar. Each minar is 100 ft. high and pitch of the arch is 50 ft above the ground. The height of the minarets is 174 ft. from the ground and they spring from the abutments of open arches facing the cardinal points. The building was built under the supervision of engineers and architects of Arabia, Turkey, Persia and India, which is remarkable of its art and architecture. This building doubled the glory of the Qutub Shahi Kings. Close to the Charminar, there are the four arches (Char Kaman) built in A.D. 1593 over four streets leading to the four quarters of the city. The Charminar is illuminated daily from 7 P.M. to 9 P.M.

### **Macca Masjid :**

This is about 100 meters to the South of Charminar. It is an impressive building measuring about 69/46/23 meters with four minarets, two large and two small. Its most unusual feature is that the lofty pillars supporting the arches and the prayer, niche are carved out of single slabs of granite. It is popularly believed that some earth was brought from Mecca, certain number of bricks were made out of it and used in the construction of the mosque. Macca Masjid is principal place of Muslim worship in Hyderabad and it is capable of accommodating over 10,000 devotees. The foundation for this building was started during the reign of Sultan Mohammad Qutub Shah (A.D.1612-1626) and was completed by Aurangazeb (A.D.1658-1707).

### **Falaknuma Palace :**

This castle was built upon a hill by Vicar-ul-Umera one of the Prime Ministers of the erstwhile Nizam's dominions. It is regarded as one of the finest palaces in India. No building in the city of Hyderabad equals from the point of architecture and design. There is much similarity in this palace of king Louis XIV. The palace accommodates a library containing the most valuable collection of manuscripts and printed books. A picture gallery and a luxurious reception with cabinets containing diamonds, crystal and emerald are some of its special attractions.

### **Osmania University :**

Inaugurated in temporary buildings, it was built by the late Nizam of Hyderabad in 1939. Its Arts College is built in the Indo-Saracenic style. It ranks probably the first among the most precious and proud possessions of the city, which has a number of historic monuments worth visiting. This university is famous for its mixed architecture of Hindu and Islamic culture.

### **Salarjung Museum :**

This museum is a remarkable collection of one man Mir Yousuf Ali Khan Salar Jung – III, Prime Minister of the Nizam, who was a great connoisseur of art. He brought this vast array of curious from all over the world. Thirty five rooms house 35,000 exhibits, some rare paintings, statues, jewellery. Armour, precious stones, manuscripts etc. This museum lies on the right bank of the river Musi. It houses the Indian, Persian, Turkish, Burmese, Chinese, Japanese, Egyptian and Western collection. The ivory chairs and turban of Tipu Sultan, the swords and daggers of the Mughal Emperors are the prized collection of this museum. It is the third biggest national museum in India, while the first and second are the Calcutta and Delhi respectively. The museum has been shifted to a newly constructed palatial building in 1969.

### **Miralam Tank :**

This tank is situated to the Southern-west of the city and thirteen kilometer in circumference. Its length is 1,120 yards and it was constructed by French engineers in Nizam's service. Mir Alam, the minister, built this and the Baradari and other buildings, out of the prize money which fell to his share after the fall of Srirangapatnam. It is a good picnic spot.

### **Nehru Zoological Park :**

This park is one of the chief tourist centres in the city attracting thousands of visitors daily throughout the year. This is one of the biggest zoological gardens in the country and it covers an area of over 123 hectares. The main objective of the park was to provide natural habitation to the animals.

### **Chatrinaka (Old City, Hyderabad) :**

This old city area has flourished during the period of Nizams. Here the temple of Chitragupta is an important tourist spot. This temple was constructed in the year 1809 by Raja Kelvaram Bahadur. The 'Sami Tree' in this temple premises is said to be older than Charminar. In India, temple for Chitragupta is existing only in two places, one at Chatrinaka and the other at Allahabad of Uttar Pradesh State.

According to Hindu mythology, Chitragupta is the Accountant of Lord Yamadharma-raja who punishes sinful people after their death. He maintains the ledger for the misdeeds committed by each and every human being and submit the same to Yamadharma-raja for awarding the suitable punishment. Probably, due to fear, no temples were constructed to Chitragupta except at the two places mentioned above.

### **Birla Mandir :**

A temple dedicated to Lord Venkateswara sits on the Hill top of Kalapahad, overlooking the Hussainsagar lake. The architecture is a balance of North and South Indian styles of temple architecture. A breath taking view of the city can be seen from the top of the temple, a monument of grandeur and magnificence in marble.

### **Birla Planetorium :**

On the hill of Naubat Pahad is located India's newest and most modern planetarium with Japanese instrumentation. It was constructed by Birla Archaeological and Cultural Institute. It is developing into a centre for astronomical studies. On this hill is built a modern science museum intended to be the best in the country.

### **Science Museum :**

Besides Planetarium, the second phase of the centre is the large B.M.Birla Science Museum. The science Museum highlights science, Technology and Industry. In conformity with its motto "DISCOVERY THE MAGIC OF SCIENCE". The science Museum building which is a magnificent structure with superb interior decor covers an area of nearly 10,000 sq.ms. One floor of about 2000sq.mts., houses an interactive. Science centre, with participatory exhibits in section on perception. Mechanics, Optical Illusions, Mathematical Puzzles. Optics, Electricity and Magnetism, Vibrations and Sound, Energy and Motors, Computers and Robots. Life Sciences, Astronomy and Space, Chemistry and other topics. The B.M.Birla Science Museum was inaugurated in March, 1990. The Museum also has an archaeological section exhibits objects of immense interest.

### **"PRASADS" – Adding value to Tourism in Andhra Pradesh :**

PRASADS family entertainment centre is a part of the Buddha Purnima Project initiated by the tourism department, Government of Andhra Pradesh to promote in and around the city of Hyderabad. The strategic location of the project which has the NTR gardens, Lumbini park, Hussainsagar lake area and the Neckless Road adjacent to it makes it an attractive destination for tourists. This Rs. 61 crore project has become a yet another milestone in the Governments efforts to promote tourism. In a very short time, it has become land mark in the city and has people thronging to its complex.

Over millions of people have visited the complex and have used facilities provided. Events like new car launches, rock concerts, game shows, corporate film shows, film star appearances and more have made the complex a much happening place. Tourists from all over the country in huge numbers are being seen at the complex. Schools, cultural and social groups, cinema associations and other bodies of the society from in and around the State have and are visiting the place to experience the novelty and facilities. PRASADS has become a must see weekend destination place for the citizens of twin cities.

IMAX the pride of city and the tourism department has contributed in a large way to the education fraternity of the city and State. The quality and content of films shown in IMAX

are a mix of entertainment and education. The IMAX films transport students into a State of virtual reality where they are made to feel as being part of the action, location and experience shown to them on the screen. The experience is a very memorable one which will add value to their school life. The IMAX technology is so real that students sitting in their very own city can feel the experience of going to different places all around the globe including space.

**Here are some salient features about PRASADS contribution to tourism:**

1. First project of its kind in the whole of South India to be opened at Hyderabad adding value to the city and State.
2. The facility attracts visitors from other States.
3. The complex and the IMAX technology attract foreign tourists.
4. Value addition to schools and education fraternity.
5. Family entertainment being the main objective and the project has been received and become endeared to the people of the twin cities.

**PRASADS– An Integrated Family Entertainment Centre :**

Located in the heart of the city near NTR Gardens is “PRASADS”, a fully integrated Family Entertainment Centre. Spanning a total build up area of 2,35,000 Sft., this centrally Air Conditioned facility houses a five screen multiplex, south India’s first IMAX theatre, food courts and retail shopping providing the patron a one stop facility for entertainment and leisure aimed at achieving “customer delight”.

**Five Screen Multiplex :**

The first multiplex in Hyderabad to open its doors to public boasts of State of the art projection systems, Dolby digital surround system and comfortable seating for 390 providing the patron an unparalleled viewing experience. The first shows start from 11A.M. in the morning and the last show is at 10 P.M. A mix of English, Hindi and Telugu movies give a choice of entertainment to people from all over.

**PRASADS IMAX Theatre :**

IMAX is a brand that is recognised world wide for high quality family entertainment and is the most vivid and immersive film experience available. Derived from “MAXIMUM IMAGE”, the IMAX experience is “The next best thing to being there” with images of unsurpassed size and clarity a six channel audio system with 12000 watts of digital wrap around sound providing Life – Like Sound. The 72 ft x 92 ft is the world largest 3D Screen. With a specially designed theatre featuring screen up to 8 Stories high, IMAX provides truly illuminating entertainment, captivating adults and children alike. The IMAX experience puts the audience in the centre of the action... in a way no ordinary film experience can. PRASADS IMAX theatre has a seating capacity of 630 for 2D and 500 for a 3D show. This theatre has been attracting crowds for its novelty and unique experience from all over the city and the State.

### **Food Court :**

This food court, the first of its kind in Hyderabad serves a sumptuous spread of multi-cuisine food. Some of the most reputed food chains in twin cities like Ohri's, Subway, and Marry brown (the food court operator) caterers to the patron's palate at very competitive prices.

### **Retail Shopping :**

Spread over 30,000 sft. over retail area PRASADS houses some of Indian most reputed and prominent brands providing the patron an entire range of shopping.

## **MAJOR CHARACTERISTICS OF THE DISTRICT, CONTRIBUTION OF THE DISTRICT IN THE FORM OF ANY HISTORICAL FIGURE ASSOCIATED WITH THE DISTRICT**

Hyderabad is the beautiful city of historical fame and the capital of Andhra Pradesh. Originally it is founded by Sultan Mohammad Quli Qutubshah the 5th king of Qutubshahi dynasty in 1590AD. Mostly the present district of Hyderabad is covered by this ancient city. Being the State capital several important politicians, authors, sportsmen, artists, freedom fighters and social workers were settled here and many of them carried out their activities. The persons of these categories, though their place of birth was different, they have endeavoured their activities in this district. To mention few late Sarvasri Marri Chenna Reddy, K.V.Ranga Reddy, T. Anjajaih, Maqduum Moinuddin, Mir Alikhan, etc., were politicians who attained highest status in the Government and politics of the State. Similarly, the famous cricketers M.L.Jai Simha, Abid Ali, Mohammad Azaruddin and V.V.S.Laxman hails from this district.

One more personality, as per historians, the forgotten hero of first war of Independence Torrebaaz Khan or Turum Khan hails from this district. Residents of Hyderabad are familiar with this Turum Khan. This name is inadvertently used in a negative sense or with sarcasm. **Turum Khan jaise baat mat karo** (don't talk as if you are dare enough), Turum Khan hai kya (Are you so daring) and several other such dialogues have become so popular in Hyderabad that hardly a day passes without one hearing them in some context or the other. Without knowing who is this Turum Khan, Hyderabidis use his name during discussions, arguments and quarrels.

Torrebaaz Khan underestimated the British and Nizam rulers and tried in vain to overpower them. According to historians and A.P. Freedom Fighter's Committee, a group of 500 patriots led by Torrebaaz Khan attacked the British Residency (presently the Women's College, Koti) on 17th July, 1857. Many of them died when the British forces retaliated. Torrebaaz Khan who escaped the attack, was later arrested and killed by the British soldiers. His body was hung at the entrance of the British Residency at Koti for 3 days to create fear in the minds of freedom fighters.

## **SCOPE OF VILLAGE DIRECTORY AND TOWN DIRECTORY**

### **COLUMN HEADING WISE EXPLANATION AND COVERAGE OF DATA**

The village directory and town directory presented in the District Census Handbooks are proved more useful. The formats of village directory and seven statements on town directory are on the same pattern canvassed in 2001 Census, except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. All the amenities except recreational and cultural facilities, power supply and newspapers/magazines are brought under one bracket, with corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where the educational and medical facilities are not available. The non-Census data presented in the village and town directories relate to the year 2009. However, wherever the field agencies have indicated the later position, the information has been updated. Almost all the details in the statement have been indicated by codes. In respect of total population and total number of households, the figures as returned during the recent Census i.e. 2011 Census have been presented. The scope of village directory and town directory statements with column heading-wise explanation and coverage of data are presented hereunder.

#### **Scope of Village Directory:**

In the similar manner as was done in the past, the village directory has been prepared for all the villages in the State and these are presented Mandalwise in the District Census Handbook. These statements contain village-wise area, population, amenities such as educational, medical, communications, drinking water facilities, etc., and also the land use pattern details. The villages are shown in order of their Permanent Location Code Numbers (PLCN). An alphabetical list of villages with their Permanent Location Code Numbers and a Mandal map has been presented in the beginning of Village Directory of each Mandal. This facilitates the reader in locating the Mandal in which a particular village lies. The village directory now contains 122 columns as against 23 columns in the 2001 Census handbook. To give more information under amenities column, banking facilities such as commercial and co-operative banks, agricultural, non-agricultural and other credit societies have been included in the present statement. Besides the above, the Village Directory is having 07 appendices viz:

- Appendix I: Summary showing total number of villages having Educational, Medical and other amenities in villages – Mandal Parishad level.
- Appendix 1A: Villages by number of primary schools
- Appendix 1B: Villages by primary, middle and secondary schools
- Appendix 1C: Villages with different sources of drinking water facilities available
- Appendix II: Villages with 5,000 and above population, which do not have one or more amenities available
- Appendix III: Land utilization data in respect of Census towns
- Appendix IV: Mandal Parishad level wise list of inhabited villages, where no amenity other than drinking water facility is available
- Appendix V: Summary showing number of villages not having Scheduled Castes population
- Appendix VI: Summary showing number of villages not having Scheduled Tribes

population

Appendix VIIA: List of villages according to the proportion of the Scheduled Castes to the total population by ranges.

Appendix VII B: List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.

It may be noted that the Appendix 1A, 1B, 1C and II have been included afresh in comparison to the District Census Handbooks of 2001 Census.

Columns 1, 2 and 3 relate to the Sl.no.name of the villages and location code number. The area given under column 4 is as per the data collected from the State survey department during 2001 Census and presented even for 2011 Census as the department classified that there are no changes in the area figures. Column number 5 to 6 provide the total number of households and the total population. Column 7 to 76 list out the basic amenities available in the village, such as educational, medical, drinking water, drainage, sanitation, post, telegraph, telephone, village pin codes, PCOs, couriers services, communications and transport .

The column 77 to 79 give the details of banks, ATMs, agricultural, non-agricultural and credit societies, whereas columns 80 to 89 gives details of self-help groups, public distribution system, Agricultural marketing society, regular market, weekly haat and Nutritional centers, Accredited social health activist and community center, Columns 90 to 95 gives the details of sports field, recreation centre, cultural facilities and newspaper / magazine circulation.

The columns 96 to 101 pertain to Birth and Death Registration office and power supply for domestic use, agriculture use and commercial use. Columns 102 and 103 contains name of the nearest town and distance range code. Whereas 104 to 114 pertain to the land use pattern in the village. The columns 115 to 119 pertain to the area irrigated by source in the village. Columns 120 to 122 related to the name of three most important commodities manufactured in the village.

The land use pattern in the Village Directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry of Agriculture has recommended the maintenance of records of land use pattern under five categories viz: forests, not available for cultivation, other uncultivated lands excluding fallow lands, fallow lands and net area sown.

The concepts of various types of land use given under each of the columns 379 to 396 as given in the Village Directory schedule are reproduced below:

## 1. Forests

These include all actually forested areas and the lands classified or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

## **2. Cultivated area with break-up irrigated and un-irrigated**

This includes the land under the following three categories.

### **I) Net area sown:**

The net area sown represents the area sown to crops counting areas, sown more than once in the same year, only once.

### **II) Other fallow lands:**

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or un-remunerative nature of farming, etc.

### **III) Current fallows:**

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallows.

## **3. Culturable Waste**

This item includes the land under the following three categories.

### i) Permanent pastures and other grazing lands:

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

### ii) Lands under miscellaneous tree crops and groves not included in the area sown:

Under this class is included all cultivable land, which is not included under net area sown but is put to some agricultural use. Lands under casurina trees, thatching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'Orchards' are classed under this category.

### iii) Culturable waste:

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles, which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within the cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

## **4. Area not available for cultivation**

This includes the land under the following two categories.

### i) Land put to non-agricultural uses:

All lands occupied by buildings, roads and railways or under waters such as rivers and canals and other lands put to uses other than agricultural.

### ii) Barren and uncultivable land:

This covers all barren and uncultivable land like mountains, etc., i.e. which cannot be brought under cultivation unless at a high cost. Whether such land is in isolated blocks or within cultivated holdings.

All the above particulars are based on the data received from the concerned departments like, education, medical, postal, electricity, etc., and also mainly from the Mandal Revenue Officers concerned.

Item on communications has been shown separately to spell in terms of availability of the public transport system. This is meant to see whether the village is served by any mode of transport such as bus or rail or waterway. It is against this back-ground that the item on approach to village has been given separately. This refers to road, etc., leading to the village and is to indicate whether the village is approachable both in fair and foul weather and whether it is inaccessible for all time or only some times in the year. Adult literacy class/centre under item on ‘Education’ and Primary health centre and Community health worker under item ‘Medical’ of Village Directory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission.

### **Scope of Town Directory:**

There are seven statements in the Town Directory, which include several particulars relating to the towns. These statements are almost similar to those adopted in 2001 Census except for a few changes. During the 2011 there were seven Town Directory statements. The captions of the statements are as follows:

- Statement I : Status and growth history
- Statement II : Physical aspects and location of towns, 2009
- Statement III : Civic and other amenities, 2009
- Statement IV : Medical Facilities, 2009
- Statement V : Educational, recreational and cultural facilities, 2009
- Statement VI : Industry and banking, 2009
- Statement VII : Civic and other amenities in slums, 2009

In addition to the above seven statements one appendix for the towns shows their outgrowth with population has also been presented.

The formats of Town Directory have been devised to suit the Minimum Needs Programme of the Planning Commission.

In case such of the amenity as Fire Fighting Service in statement III, the Medical & Educational facility in statement IV & V is not available in the town, the name of the nearest place and its distance from the referent town has been given. This feature is followed since 1981 Census as it is necessary to identify the areas that have no specific facility in the district.

### **Statement I: Status and Growth History**

This statement provides basic information on civic status, population with decadal growth rate from 1901 to 2011, density for 2011 Census and sex ratio from 1901 to 2011 Censuses of each town besides presenting class of town, location code, name of the Mandal,

area in sq.km. and number of households including houseless households returned in 2011 Census.

The columns 1 and 2 relate to serial number and class, name and civic status of the town. The class of town has been determined basing on the size of population as given below.

<b>Population</b>	<b>Class</b>
1,00,000 and above	I
50,000 – 99,999	II
20,000 – 49,999	III
10,000 – 19,999	IV
5,000 – 9,999	V
Below 5,000	VI

The civic status of the town is indicated in brackets by abbreviated letters like ‘M.Corp.’ for Municipal Corporation and ‘NP’ for Nagar Panchayat. The location code number under column 3 for the towns was framed to follow the method of allocation of location code to Mandals in the district. This also facilitates easy location of the town in the map. After location code the Col. 4-7 indicate name of the Mandal, name of Mandal Parishad, area of the town in sq.km. and number of households including houseless households recorded in 2011 Census. Then column no.8 & 9 shows the SC, ST population of 2011 Census. The population of the town with decadal growth rate from 1901 Census to 2011 Census is given in Col.10-21. The column 22 shows the density of population and column 23 to 25 give the sex ratio recorded during 1991 to 2011 Censuses. The sex ratio defined here is number of females per 1,000 males.

The following 03 places were treated as urban areas in Hyderabad district at the 2011 Census.

1. Greater Hyderabad Municipal Corporation (GHMC) part of Hyderabad
  2. Secunderabad (CB)
  3. Osmania University (CT).
- Hyderabad was urban area prior to 1901 and continuing since then. Osmania University attained urban status during 1951 Census, while Secunderabad Contonment Board is existing since 1931 Census. Hyderabad and Secunderabad (CB) are class-I cities, while Osmania University is class-V town and all these three are constituent units of Hyderabad Urban Agglomeration.

### **Statement II: Physical aspects and location of towns, 2009**

This statement contains 12 columns and depicts physical aspects and location of towns in the district. Column numbers 1 and 2 relate to serial number and name of the town. The physical aspects, such as rainfall in millimetres, maximum and minimum temperature in centigrade have been shown in columns 3 to 5 by taking average for the last ten years i.e. from 2000 to 2009. Among towns the highest rainfall is 788mm was recorded in Secunderabad. The lowest rain fall was in GHMC part of Hyderabad is 725mm in the district. Hyderabad have recorded maximum temperature of  $44^{\circ}$  C. The maximum temperatures among cities were between  $40.7^{\circ}$  C to  $44^{\circ}$  C and minimum temperature was  $10.2^{\circ}$  C to  $19.3^{\circ}$  C. The columns 6 to 12 give the details of name and road distance in km. from the referent

town to State, district and Mandal headquarters, nearest city with population of one lakh and more, and five lakhs and more, railway station and bus service. Hyderabad city itself is the State headquarters.

### **Statement III: Civic and other Amenities, 2009**

The title itself reveals that, this statement deals with the facilities provided to the people in the urban areas of the district.

This statement contains 19 columns. Column 1 & 2 relate to serial number and name of town. The total lengths of pucca and kutcha roads are recorded together for each town in column 3. The columns 4 to 7 show the details of system of drainage prevailing in the referent town. The number of latrines with different types is shown in columns 8 to 11. The source of safe drinking water supply and the system of storage with capacity are recorded under column 12 and 13. Column 14 shows the availability of fire fighting services. In case if this service is not available in the town, the name of the nearest town along with distance, where available to be mentioned under this column. All statutory towns have fire fighting services except Osmania University(CT).

Hyderabad City has 2004.46 km. road length. The columns 15 to 19 relate to different types of electrical connection in number. All types of electrical connections are being utilized in urban areas of the district. The number of electric connections existing in Hyderabad are 8,97,583 Domestic, 3,873 Industrial, 36,752 commercial, 67,249 road lightings. As regards Osmania University is concerned Domestic 1467, Industrial 0, Commercial 0 and 300 Road lightings are existing.

### **Statement IV: Medical facilities, 2009**

In this statement the availability of medical facilities are presented with reference to the population of 2011 Census. This statement is containing 14 columns. Column 1 & 2 relate to serial number, name of the town during 2011 Census respectively.

The column 3 to 12 shows about the availability of different Hospitals, Dispensaries/Health Centres, Family Welfare Centre, Maternity and Child Welfare Centre, Maternity homes, T.B. Hospital/Clinic, Nursing homes, Veterinary hospital, Mobile health clinic and others etc. Columns 13 & 14 shows number of Charitable Hospital / Nursing home (Private) and number of Medical shops available.

All statutory towns possess good medical facilities. Census towns, which are within the proximity of statutory town, people of these towns depend on respective statutory towns closer to them.

### **Statement V: Educational, Recreational and Cultural facilities, 2009**

In this statement the availability of educational, recreational and cultural facilities are presented with reference to the population of 2011 Census. This statement contains 23 columns. Column 1 & 2 relate to serial number and name of the town, columns 3 to 15 relate to educational facilities such as various schools/colleges at all levels including Medical, Engineering, Management Institute/Colleges, Polytechnics, Technical Institutions, Vocational Training Institutions, non-formal education centre, special school for disabled and others. The column 16 is meant for number of Orphanage Home where as column 17 & 18 for working women's hostels with number of seats and number of Old Age Home. The number of recreational and cultural facilities such as Stadium, Cinema theatres, Auditorium/Community

halls and Public libraries including reading rooms available in the cities is recorded in columns 19 to 23.

Thirty one stadiums.... Twenty three at Hyderabad, Seven in Secunderabad and One in Osmania University are existing. Auditorium/Drama/Community halls are available in all the parts of Cities.

### **Statement VI: Industry and Banking, 2009**

This statement deals with economic activities in the urban areas with 10 columns. Column 1 and 2 are serial number and class and name of the town. The columns 3 to 5 give the details of three most important commodities manufactured. The commercial banks, number of agricultural credit societies and the number of non-agricultural credit societies are furnished in the columns 6 to 10.

The important items manufactured are Computer Software, Drugs and Pharmaceuticals and Aluminium Utensils district. Computer Software, Drugs and Pharmaceuticals and Aluminium Utensils are most important commodities exported from the district. Bank facilities are available in all three cities of the District.

### **Statement VII: Civic and other amenities in Slums, 2009**

The statement give details of civic and other amenities provided in all slums whether notified or not. Keeping in view of slums problem in urban areas, during 1981 Census this statement was first introduced limiting the details to class I and class II towns. The same pattern was also adopted during 2011 Census.

Though, the magnitude of slum problem is greater in class-I and class-II towns, it is accepted that they are associated with smaller towns also. Hence the information on slums has been presented in this statement in respect of all towns having statutory bodies.

The statement on slums contains 20 columns. The columns 1 to 4 show the serial number, name of town, name of the slum and whether the slum is notified or not respectively. Column 5 and 6 give the details of approximate number of households and population of the slum during 2009. The length of the paved road in the slum has been shown in Km. under column 7. The columns 8 to 16 present system of drainage, number of latrines both private and community. The column 17 is meant for showing number of tap points / public hydrants. The last 3 columns i.e., columns 18 to 20 relate to number of electric connections under domestic, road lighting (points) and others.

**BRIEF NOTE ON TOWN DIRECTORY****Abbreviations used in Town Directory 2011 Census:****Statement I: Status and Growth History:****Column 1 – Serial Number:** Self explanatory**Column 2: Class, Name and civic status of town:-** The Class is presented according to population of the towns in 2011 Census as follows:

<b>Population</b>	<b>Class</b>	<b>Population</b>	<b>Class</b>
100,000 and above	I	10,000 – 19,999	IV
50,000 – 99,999	II	5,000 – 9,999	V
20,000 – 49,999	III	Below - 5,000	VI

The following abbreviations are used to denote the Civic Status of the town.

<b>Civic Status</b>	<b>Codes</b>	<b>Civic Status</b>	<b>Codes</b>
i-Municipal Corporation	M.Corp.	xii – Notified Town Area	NTA
ii-Municipal Committee	MC	xiii – Industrial Notified Area	INA
iii-Municipal Council	M Cl	xiv – Industrial Township	ITS
iv-City Municipal Council	CMC	xv – Township	TS
v-Town Municipal Council	TMC	xvi – Town Panchayat	TP
vi- Municipal Board	MB	xvii – Nagar Panchayat	NP
Vii –Municipality	M	xviii – Town Committee/ Town Area Committee	TC
viii- Cantonment Board/Cantonment	CB	xix – Small Town Committee	ST
ix- Notified Area	NA	xx – Estate Office	EO
x –Notified Town	NT	xxi –Gram Panchayat	GP
xi - Notified Area Committee/ Notified Area Council	NAC	xxii – Census Town	CT

**Column 3 - 25:** These columns are self explanatory**Statement II: - Physical Aspects and Location of towns, 2009.****Column 1 - 2 Serial number and Name of town:** - Self explanatory**Columns 3 to 5 - Physical Aspects:**-In these columns the Rainfall and Maximum and Minimum Temperature of the town is recorded.**Columns 6 to 12: Name and road distance of the town (in kms.)** from the State headquarters, District headquarters, Sub-divisional/Mandal HQ., Nearest city with population of one lakh and more, Nearest city with population of five lakh and more, Railway station and Bus route is recorded in these columns respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.**Statement III – Civic and other Amenities, 2009:****Column 1 - 2 Serial number and Name of town:** - Self explanatory

**Column 3 – Road length (in km.):** The information about the road length (in km.) within the limit of the town is recorded in this column.

**Columns 4 to 7- System of drainage:** The system of drainage available in the town is indicated in these columns by the following codes:

System of drainage	Codes
Open drains	OD
Closed drains	CD
Both drains	BD

**Columns 8 to 11-Number of latrines:** The number of various types of latrines available in the town is indicated in these columns.

**Columns No. 12 & 13 – Protected water supply:** The information on source of water supply and system of water storage with capacity available in the town are given in these columns in the following codes:

#### **Column 12 (Source of water supply):**

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

#### **Column 13 (System of water storage):**

(i)	Over Head Tank	OHT
(ii)	Service Reservoir	SR
(iii)	River Infiltration Gallery	RIG
(iv)	Bore Well Pumping System	BWP
(v)	Pressure Tank	PT

The information on 2 major source of water supply is given in column 12 and the system of water storage with capacity against each in kilo-litres (in bracket) is presented in column 13.

**Columns 14 Fire Fighting Service:** In case the fire fighting service is available in the referent town, 'yes' is recorded. If the facility is not available within the town, the name of the nearest place having this facility with its distance from the referent town has been recorded.

**Columns 15 to 19- Electrification (Number of connections):** Different types of electric connections have been shown in these columns, i.e., Domestic, Industrial, Commercial, Road lighting (points) & others.

#### **Statement IV: Medical Facilities, 2009:**

**Columns 1 - 2 Serial number and Name of town:** - Self explanatory

**Columns 3 to 13:** The number of various medical institutions such as Hospitals, Dispensaries, Health Center, Family Welfare Center, Maternity and Child Welfare Center, Maternity Homes, T.B. Hospital/clinic, Nursing Homes, Charitable Hospital/Nursing Home, Mobile Health Clinic and Others as available in the town, are indicated in these columns

(along with number of beds in brackets).

If a medical facility is not available in the town, the name of the nearest place and its distance in kilometers from the town where the facility is available is mentioned.

**Column 10 - Veterinary Hospital:**-The Number of Veterinary Hospitals available in the town is given in this column.

**Column 14 - Medicine Shop:**-The number of Medicine shops available in the town is given in this column.

**Statement V: Educational, Recreational and Cultural Facilities, 2009:**

**Columns 1 - 2 Serial number and Name of town:** - Self explanatory

**Columns 3 to 15 Educational Facilities:**- The information on number of Primary school, Middle school, Secondary school, Senior Secondary school, Arts/Science/ Commerce colleges (of degree level and above), Medical colleges, Engineering colleges, Management Institute/Colleges, Polytechnics, Recognized Shorthand, Typewriting and vocational training Institutions, Non-formal Education Center (Sarva Shiksha Abhiyan Center), Special School for disabled and Others available in the town, are indicated in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometers from the town where the facility is available is mentioned.

**Columns 16 to 23 – Number of Social, Recreational and Culture Facilities :-** The information on No. of Orphanage Home, Working women's hostels (with No. of seats in bracket), No. of Old Age Home, Stadium, Cinema Theatre, Auditorium/Community halls, Public libraries and Reading rooms available in the town are given under these column.

**Statement VI: Industry and Banking, 2009:**

**Columns 1 - 2 Serial number and Name of town:** - Self explanatory

**Columns 3 to 5 - Names of three most important commodities manufactured:**- The names of three most important commodities manufactured in the town are given under these columns.

**Columns 6 to 8 - Number of banks:** - The number of banks available in the referent town both Commercial and Co-operative banks are recorded against these columns.

**Columns 9 & 10 – Number of Agricultural and Non Agricultural Credit Societies:** - The number of Agricultural and Non Agricultural Credit Societies available in the referent town are given in these columns.

**Statement VII: Civic and other Amenities in Slums, 2009:**

This statement VII provides information on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like Municipality, Municipal Corporation, Town area committee etc.
